

IOAG Mission Model

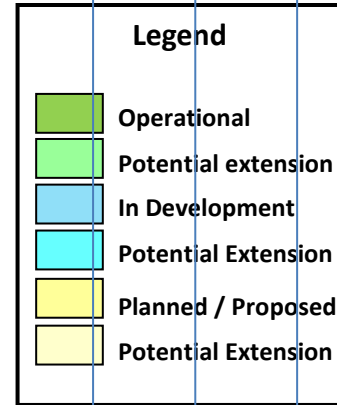

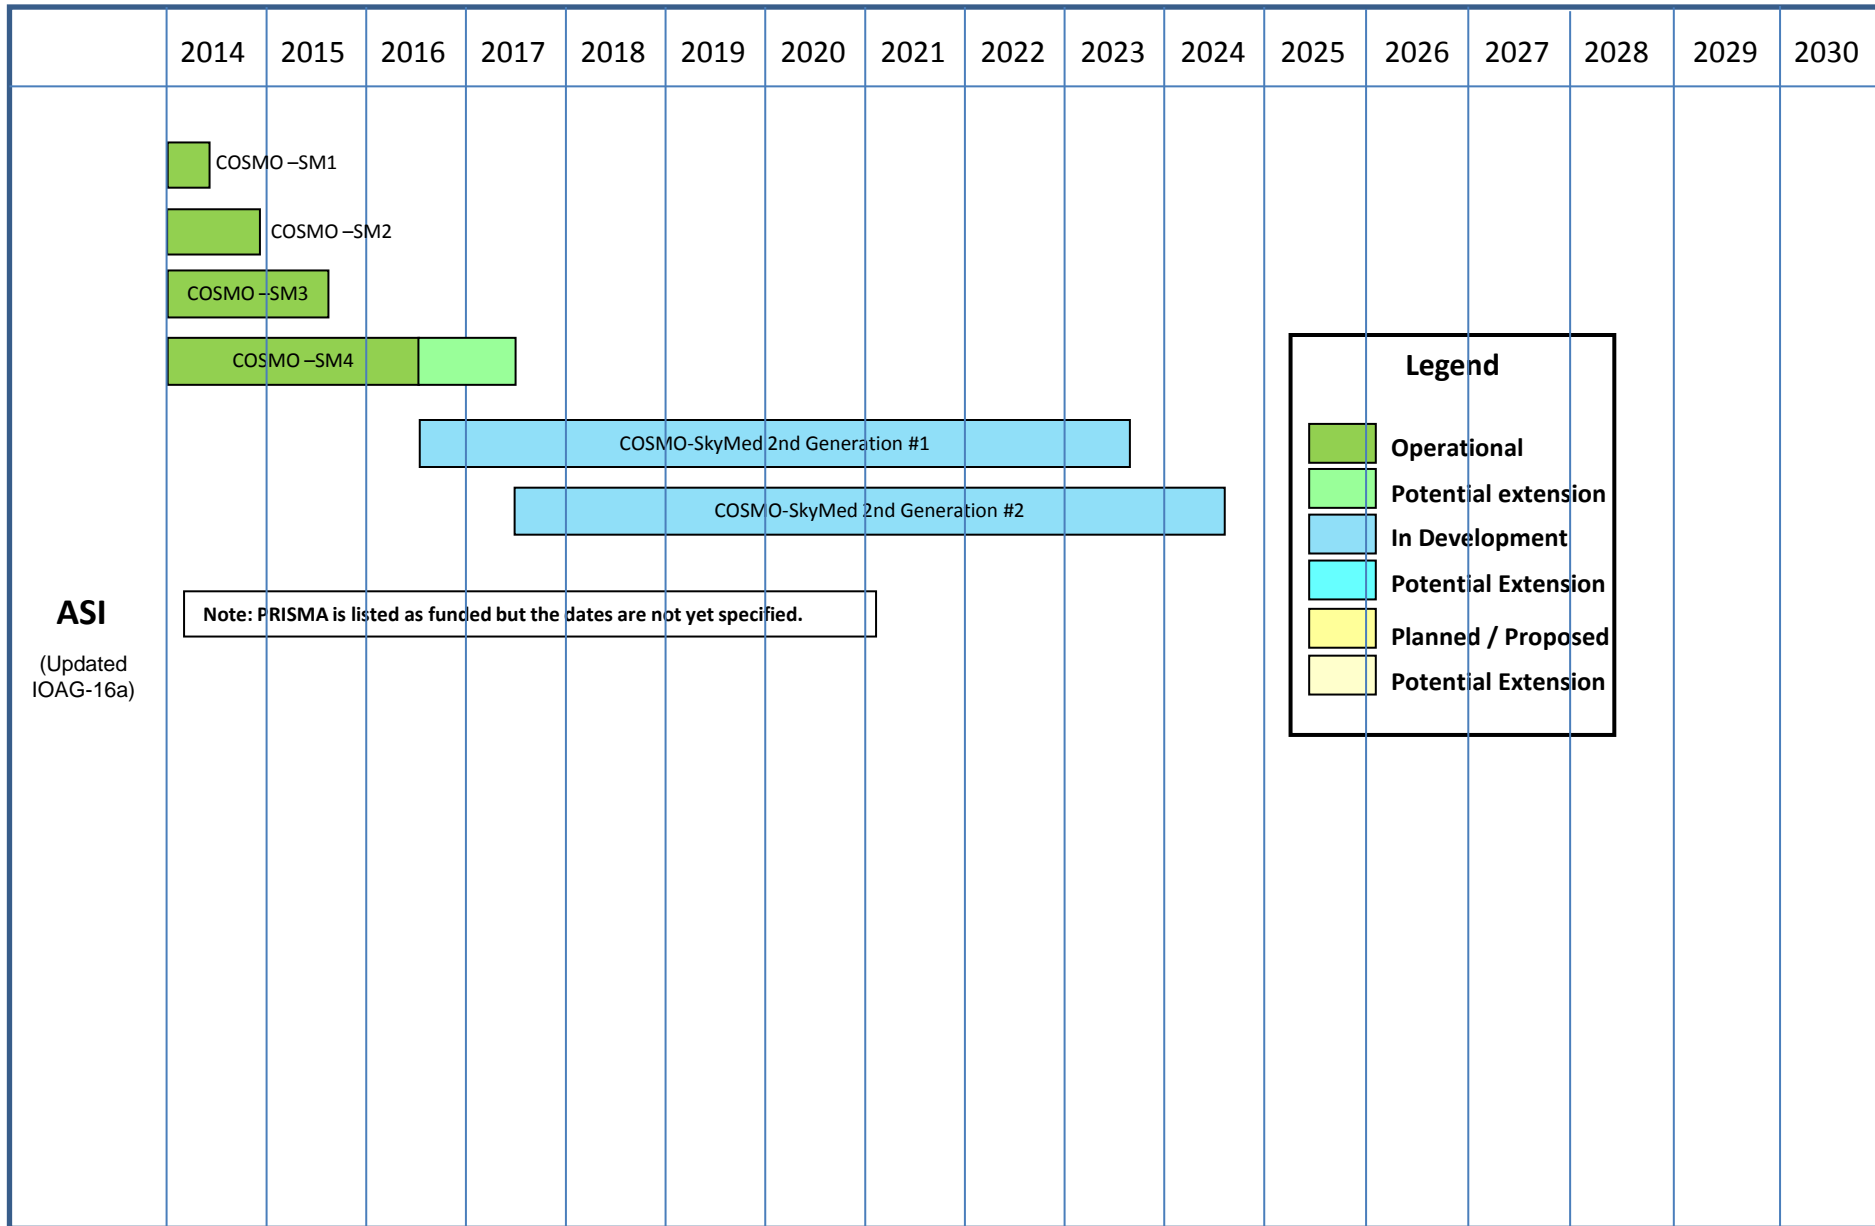

Meeting: IOAG-18

Last Updated by IOAG Secretariat on January 31, 2014

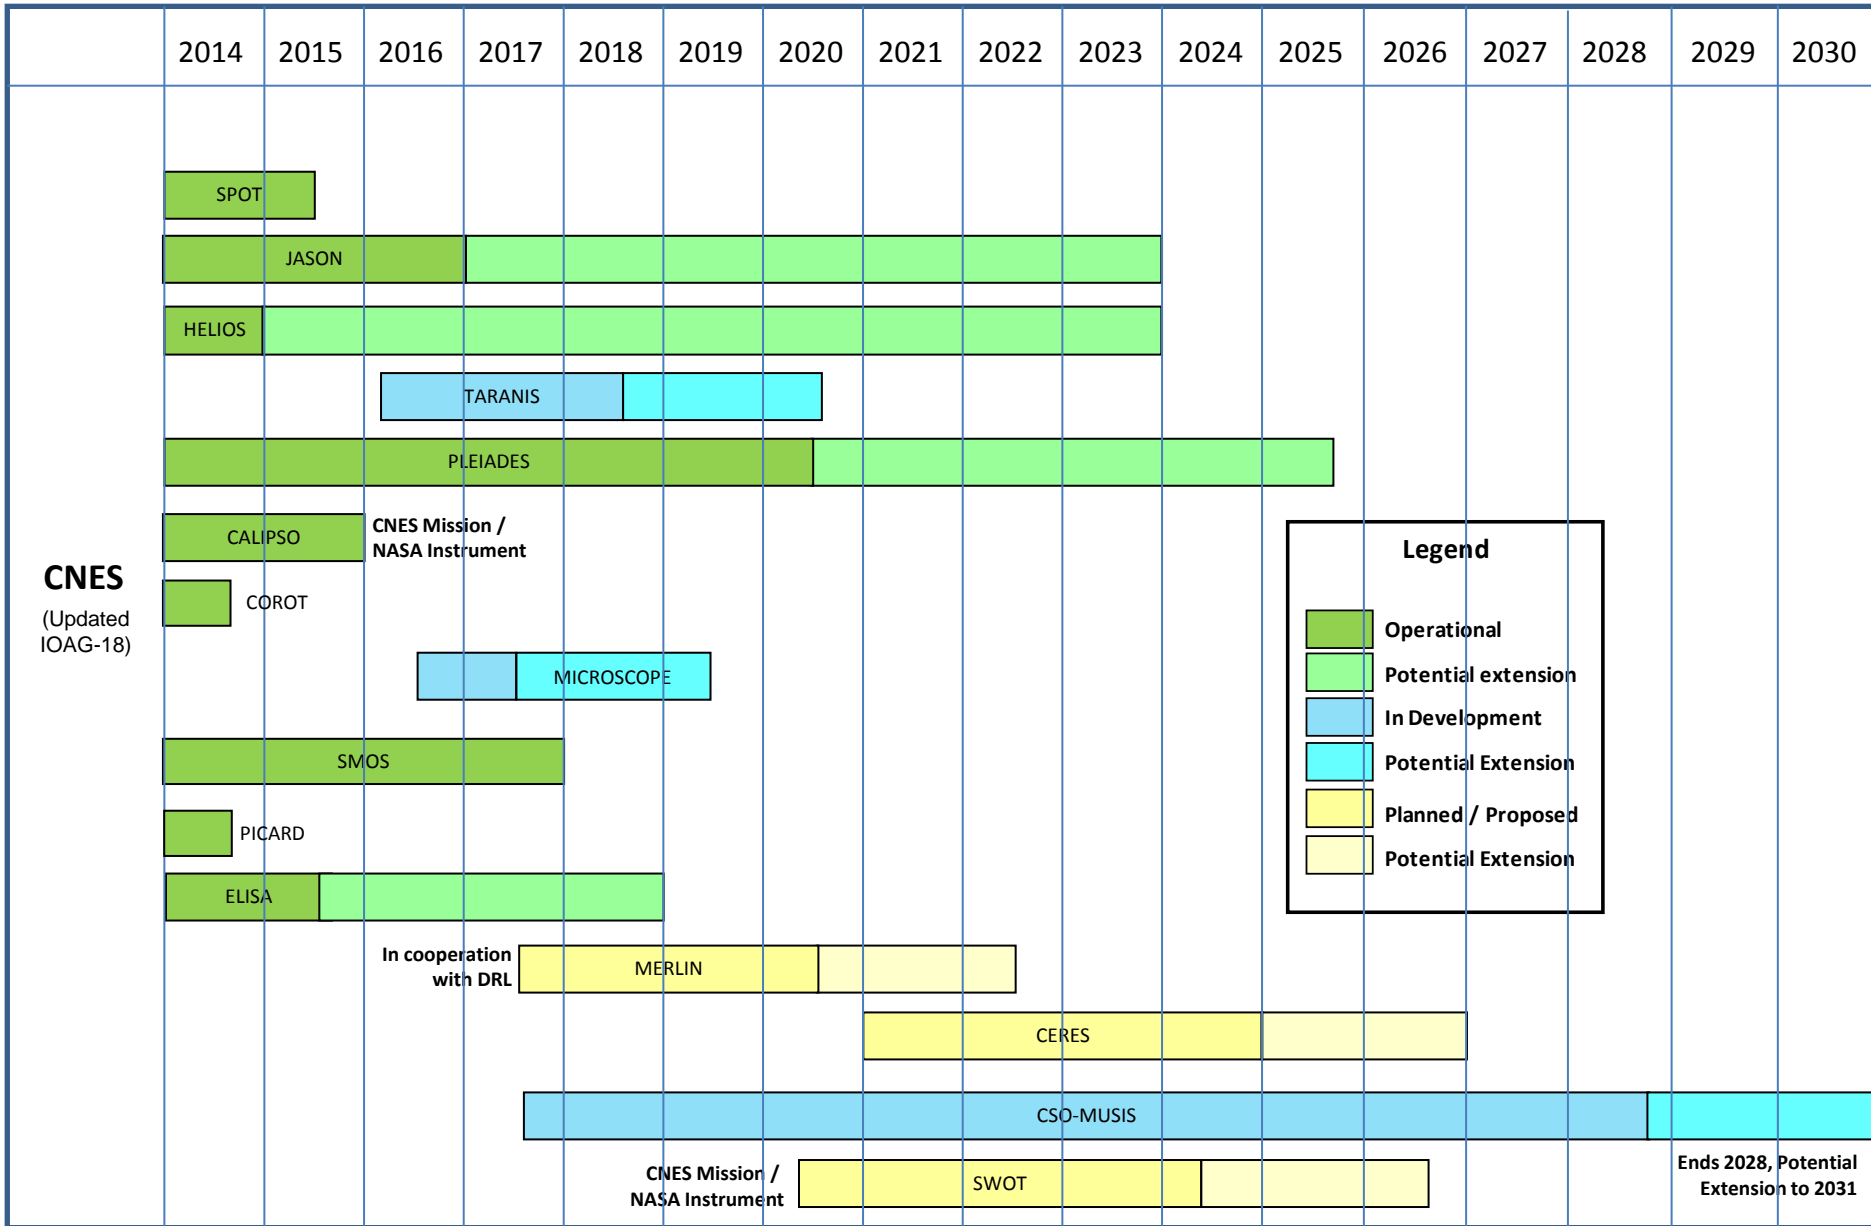

Notes:

- This version is based on the IOAG Mission Model tables submitted for IOAG-18.
- This version does not include previous IOAG data that has not been updated, or validated, in over two years (Action Item #15-09, Secretariat)
- This version does not include data, such as the inputs received from the SFCG, that has not been confirmed/validated by the national space agencies represented at the IOAG (Action Item #15-14, Secretariat).

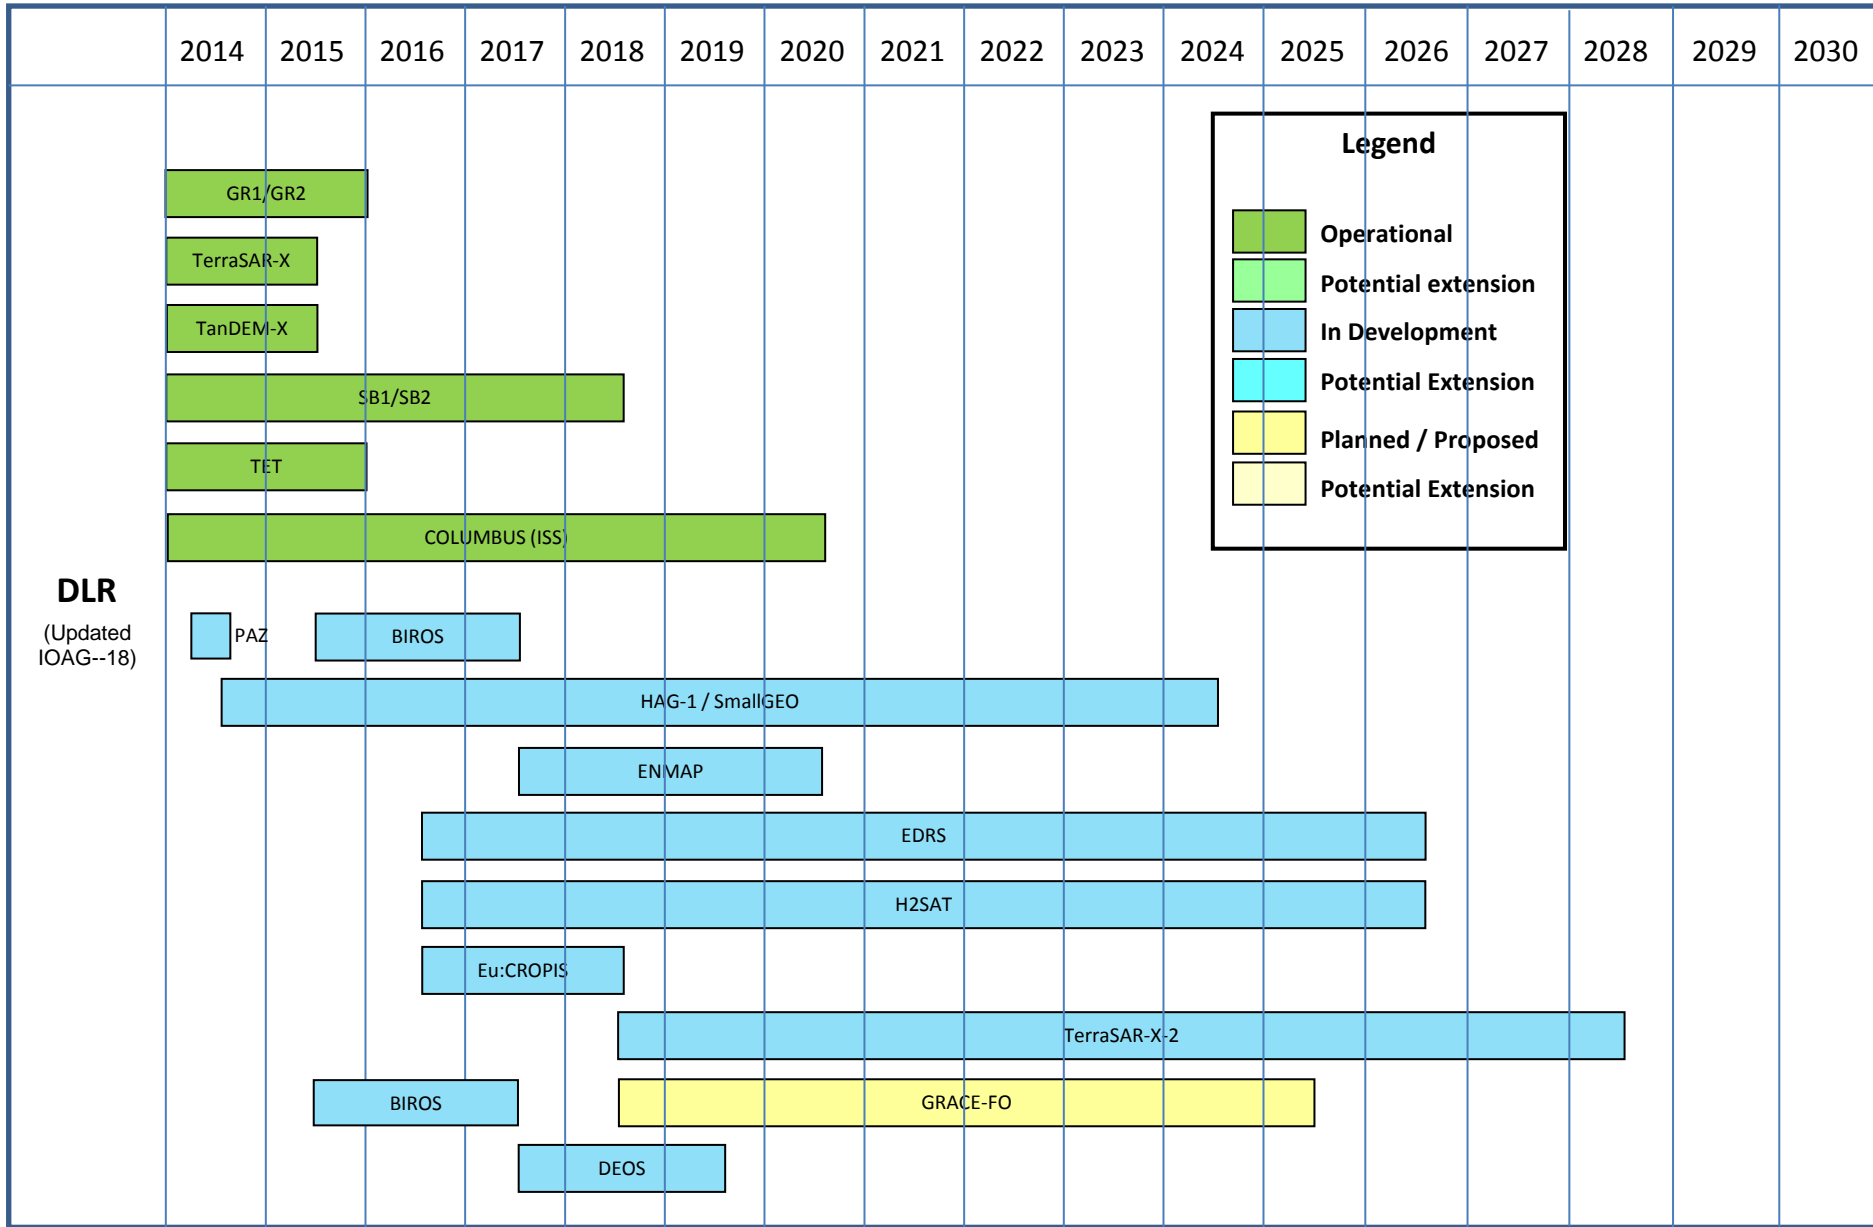

Earth Missions (1)

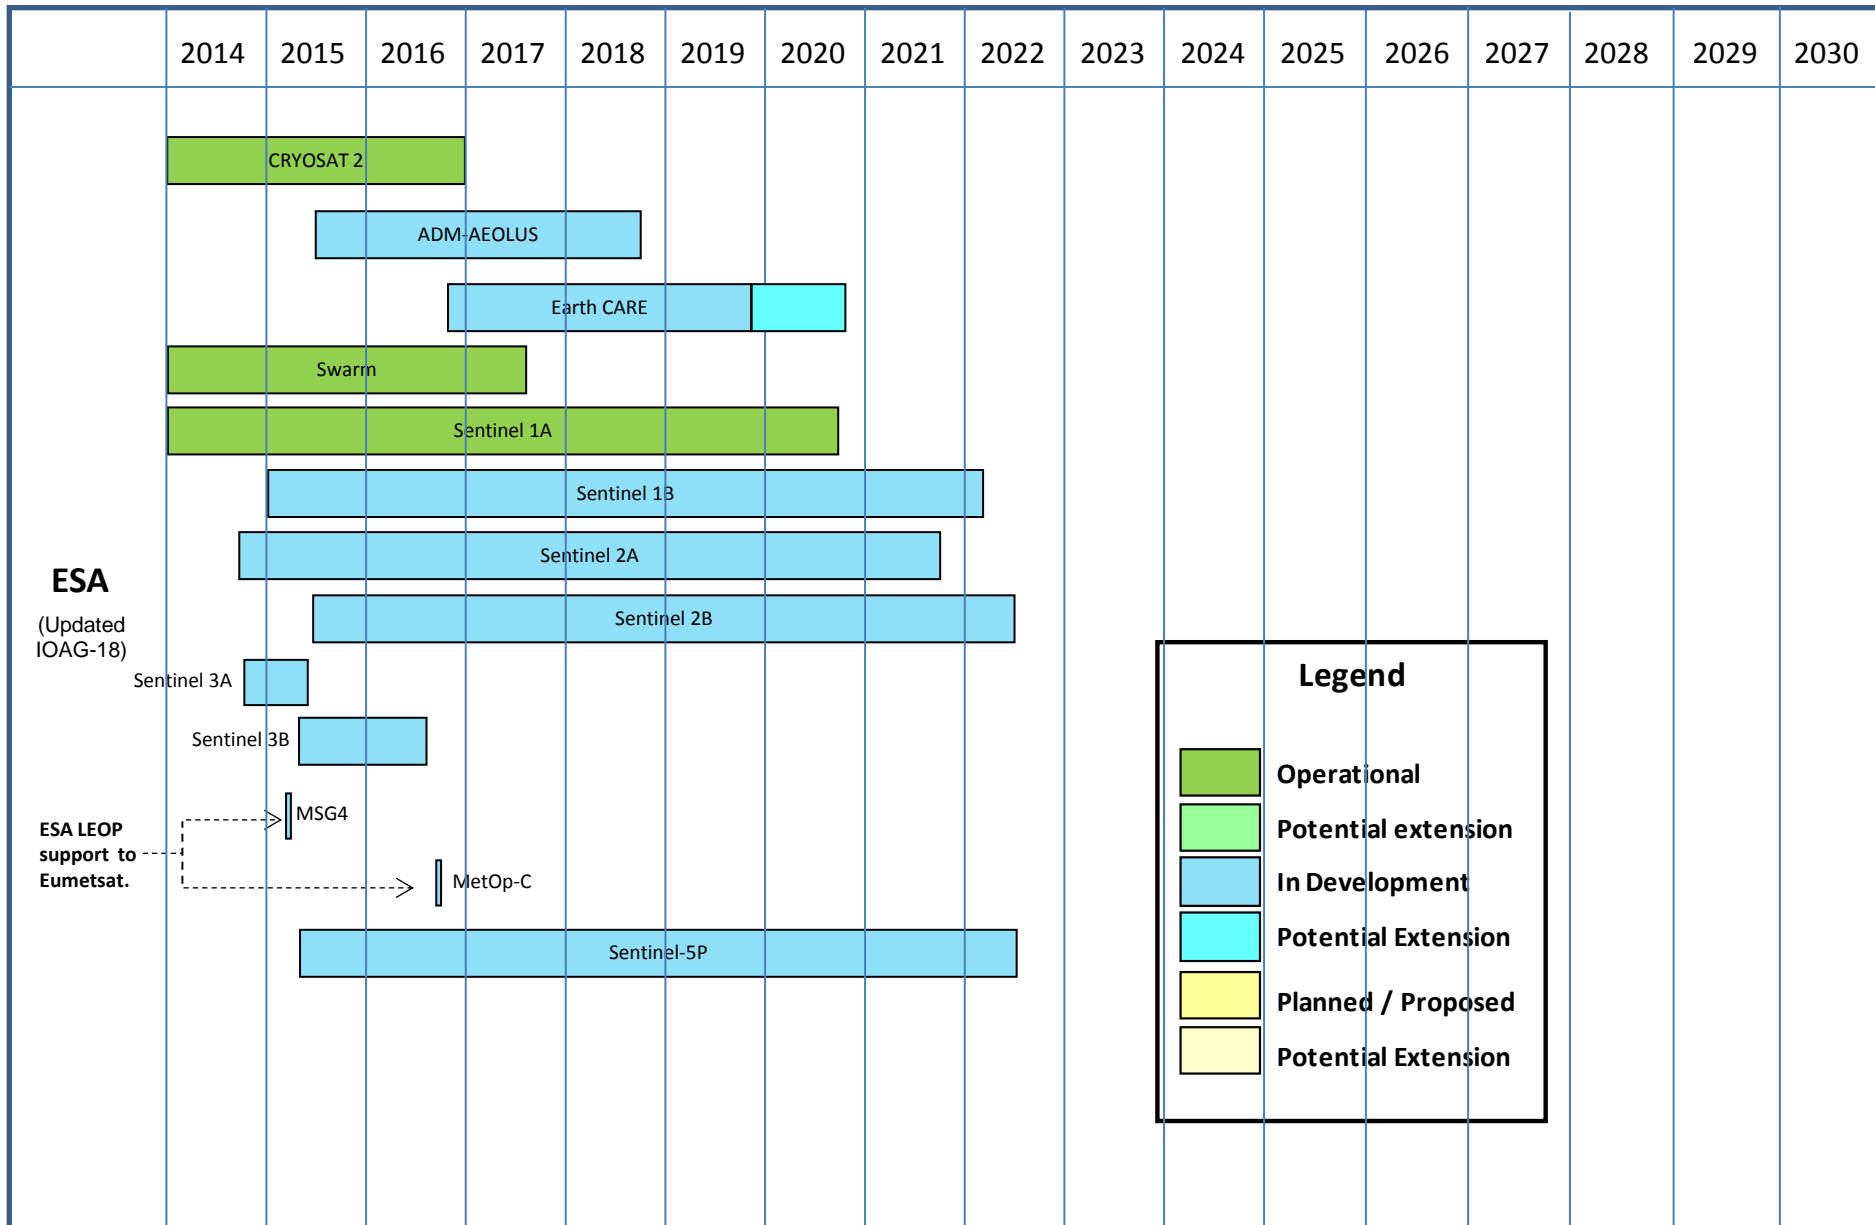

Earth Missions (2)

Earth Missions (3)

Earth Missions (4)

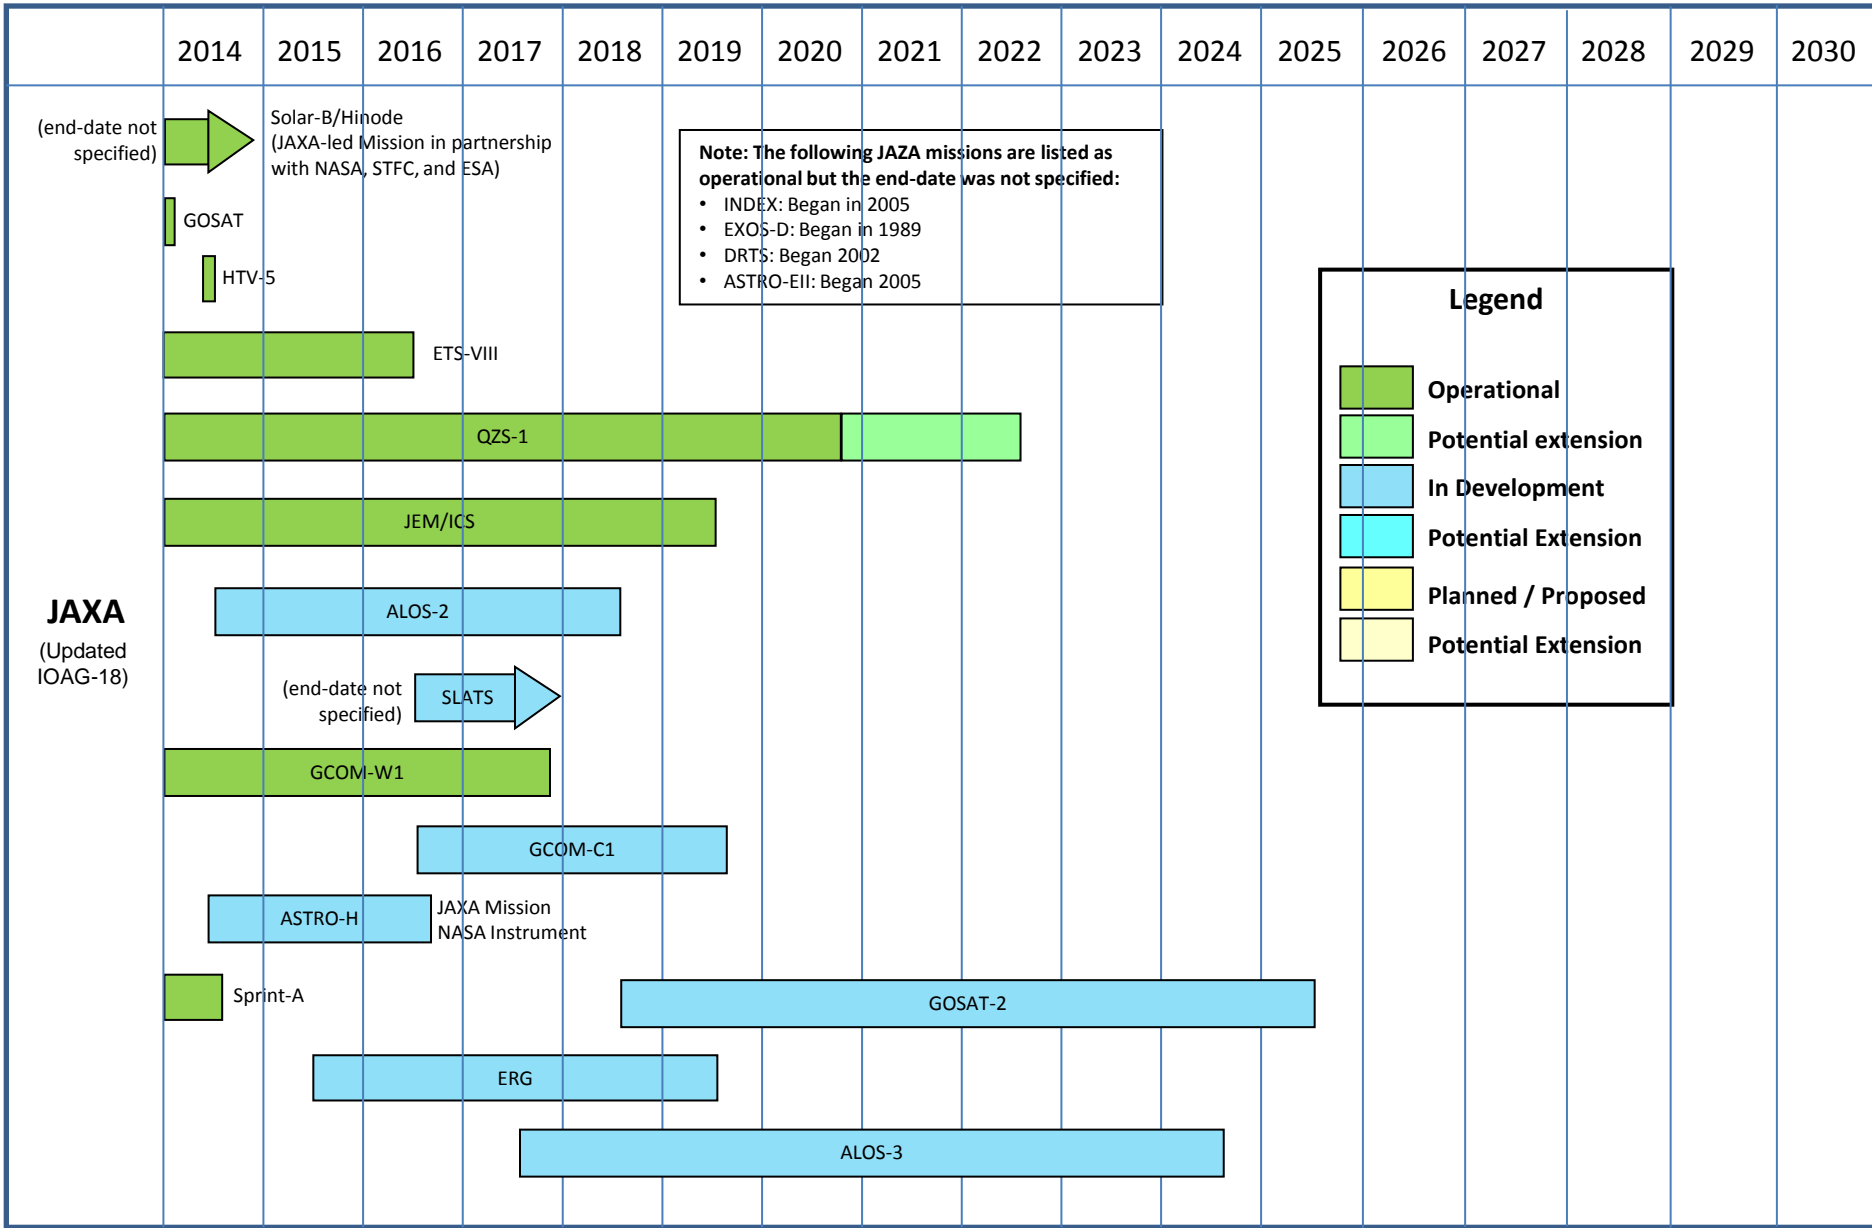

ESA
(Updated IOAG-18)

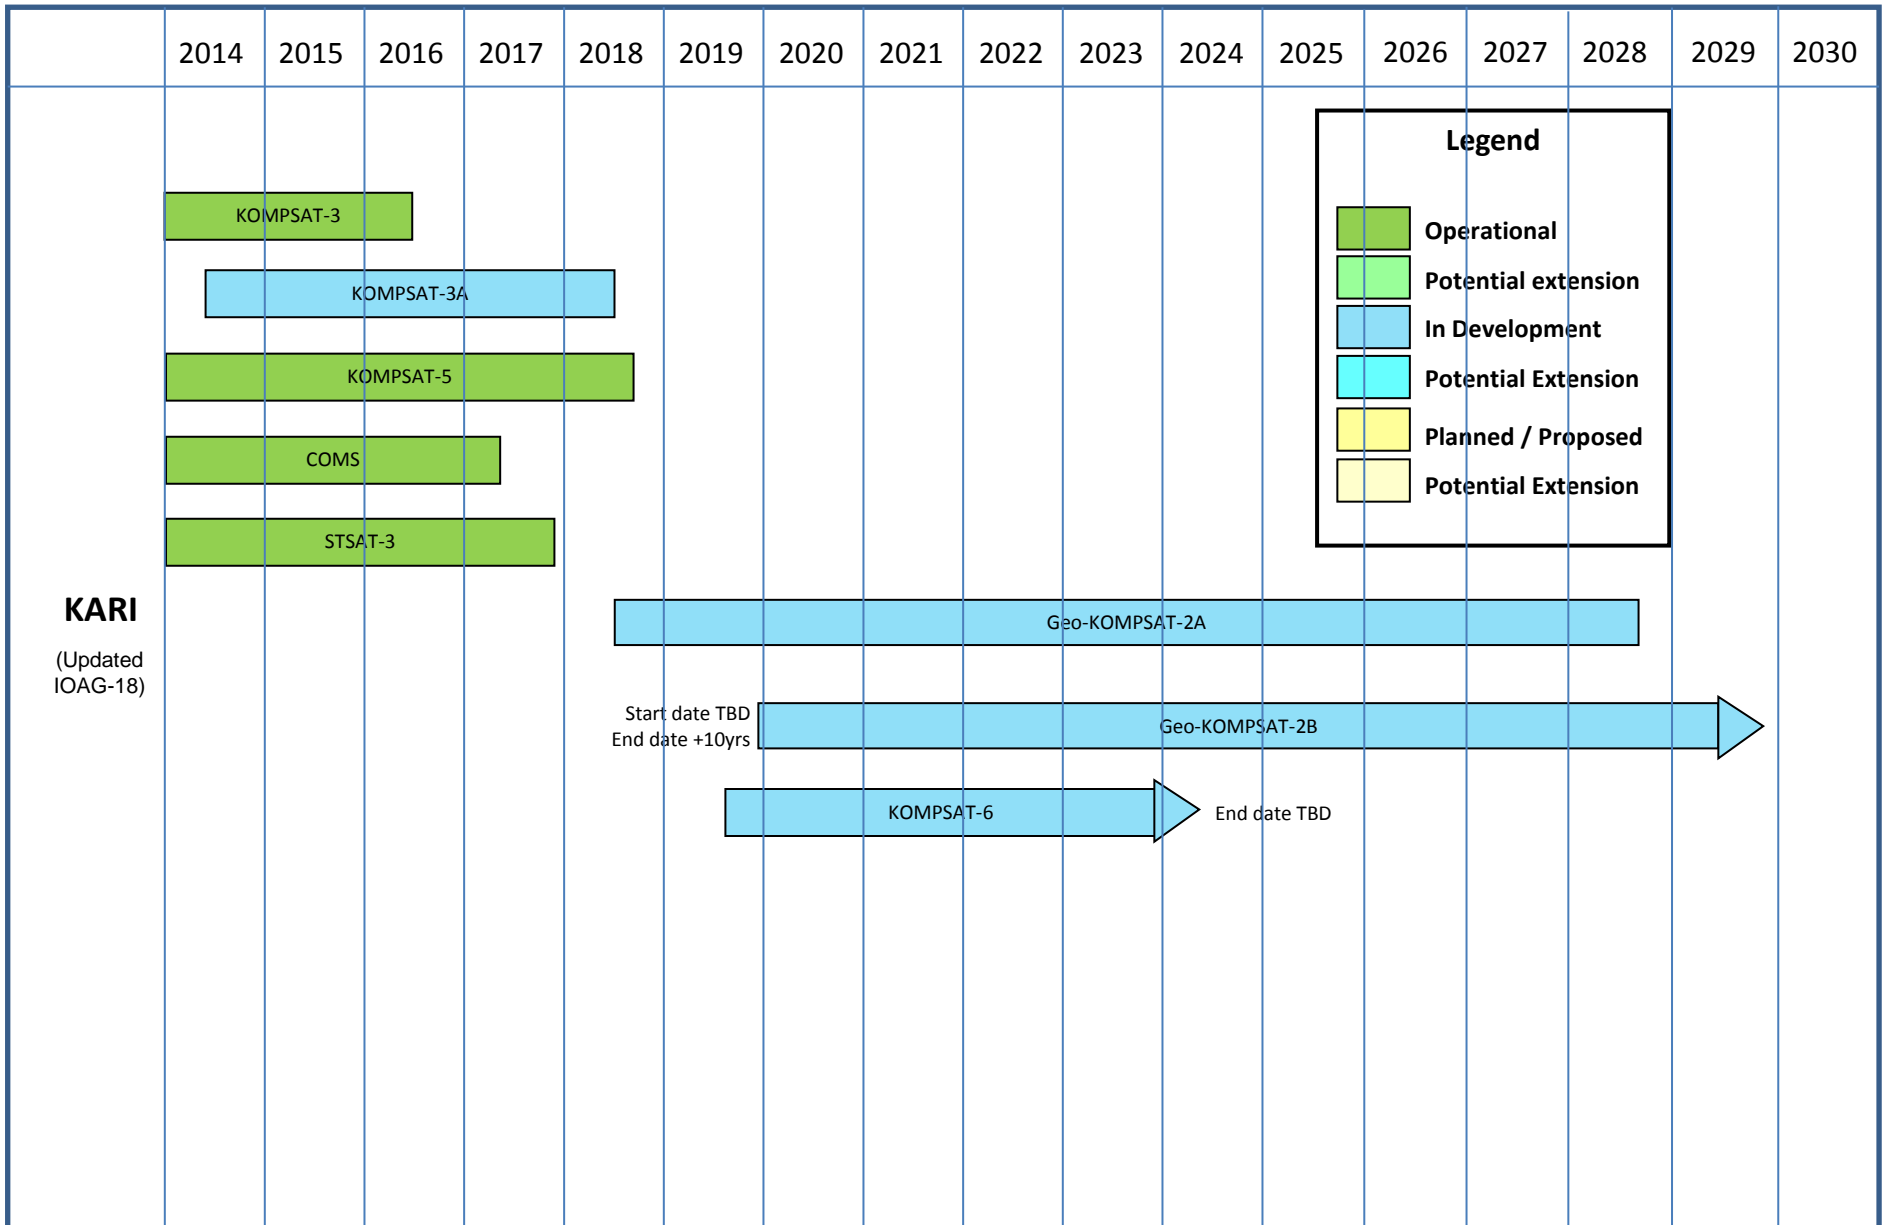

Legend

- Operational
- Potential extension
- In Development
- Potential Extension
- Planned / Proposed
- Potential Extension

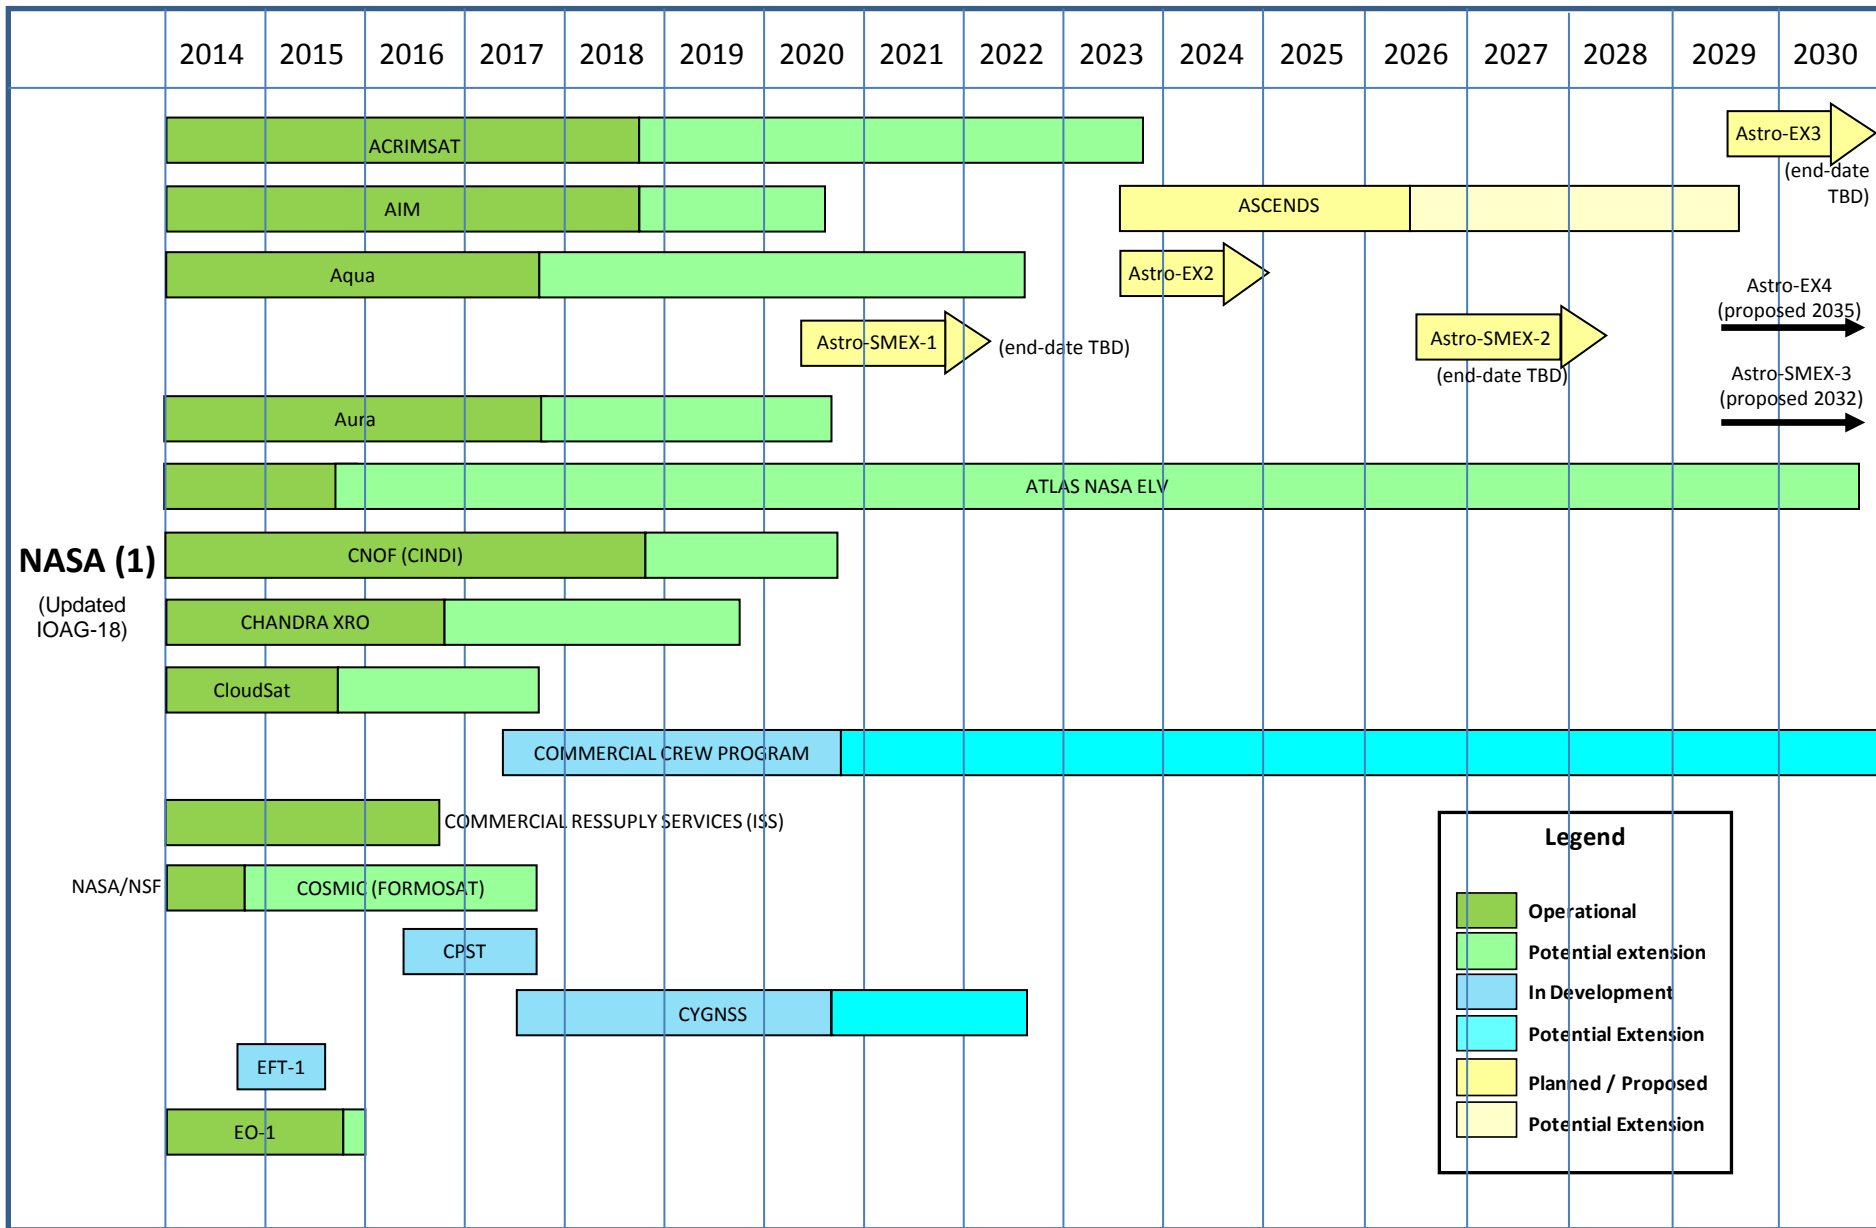

Earth Missions (5)

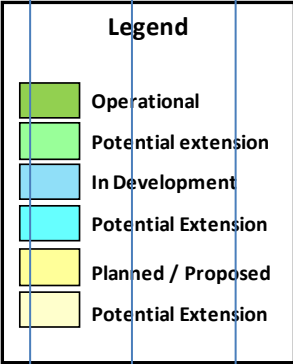

Earth Missions (6)

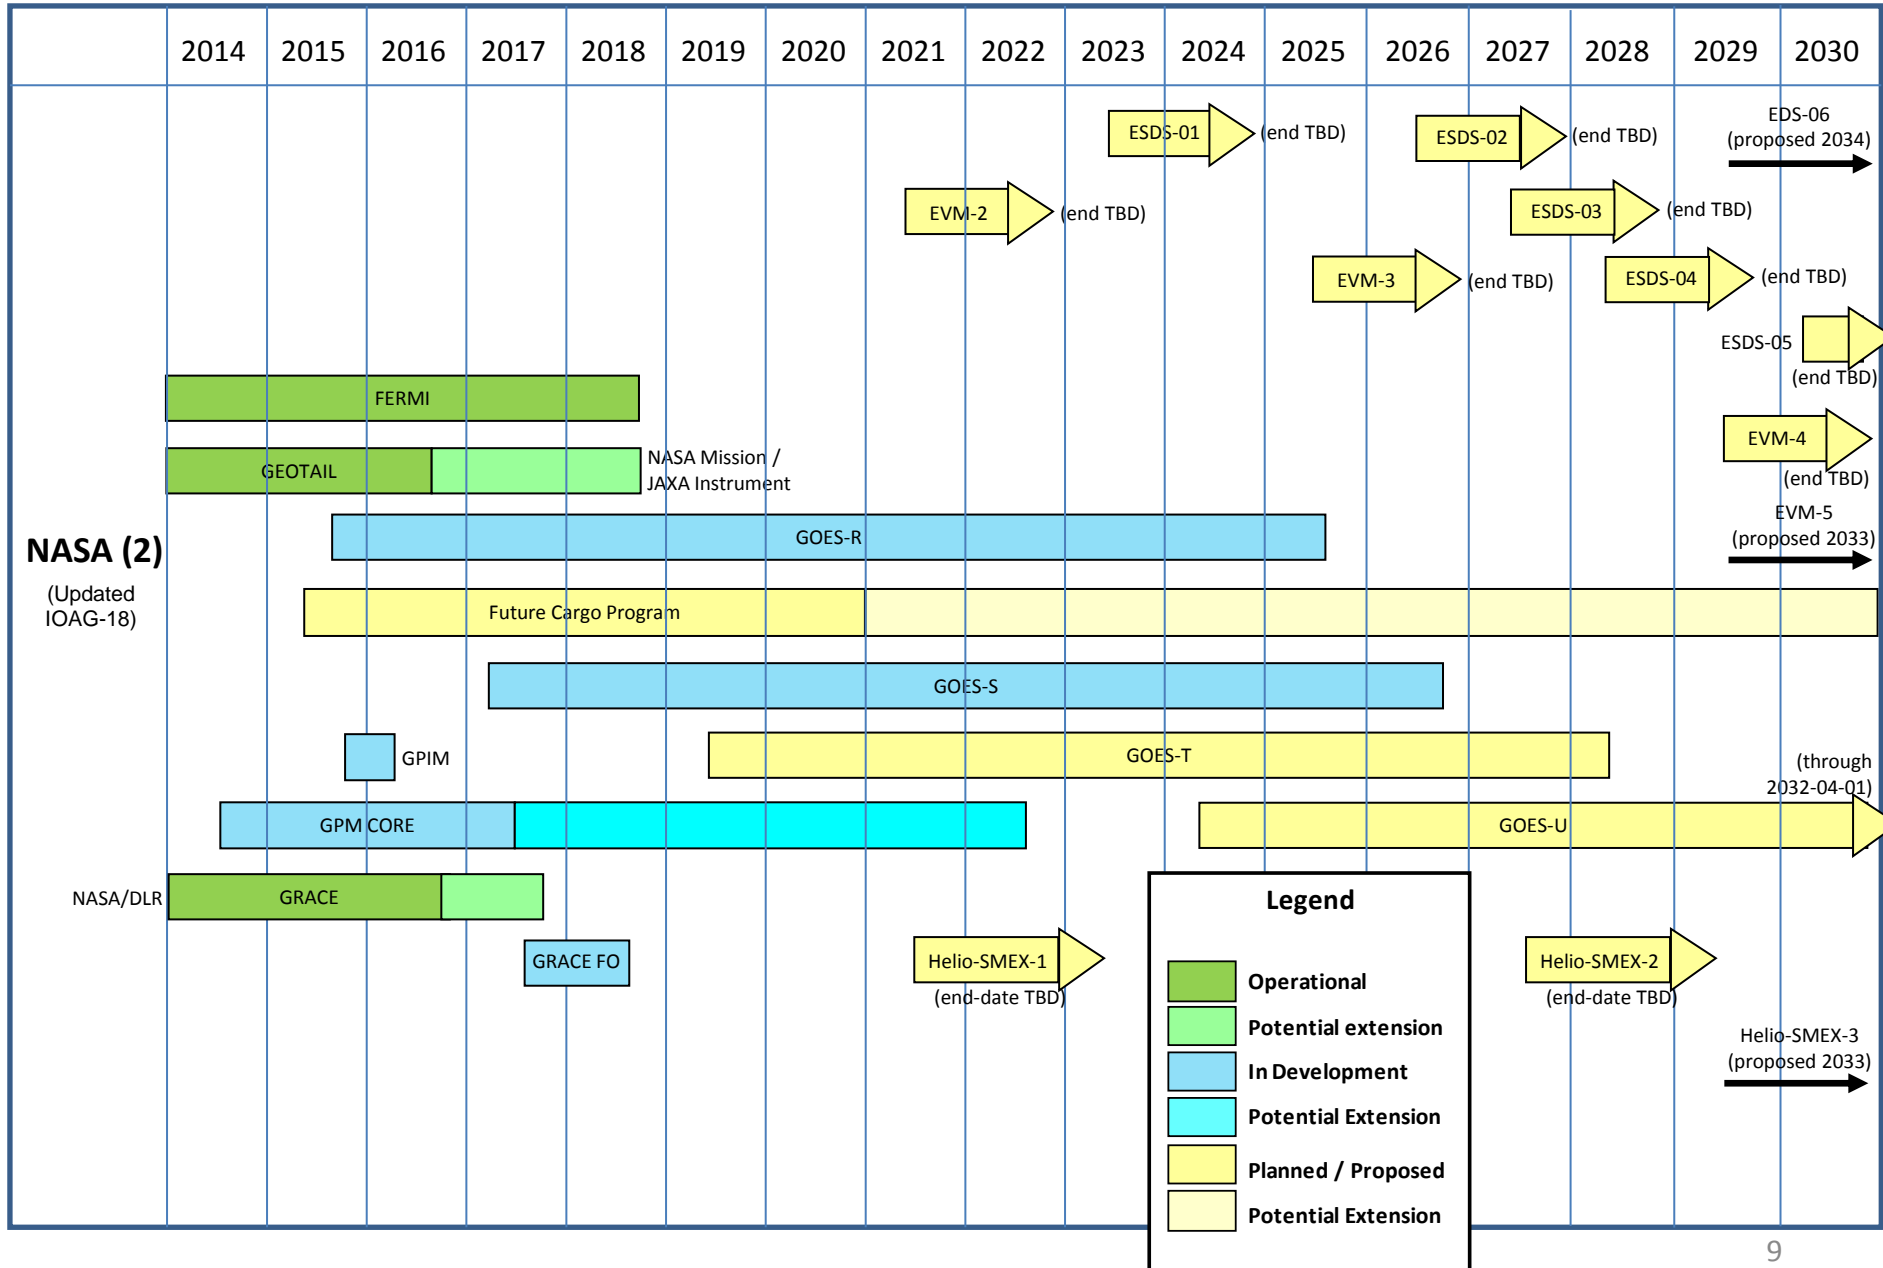

Earth Missions (7)

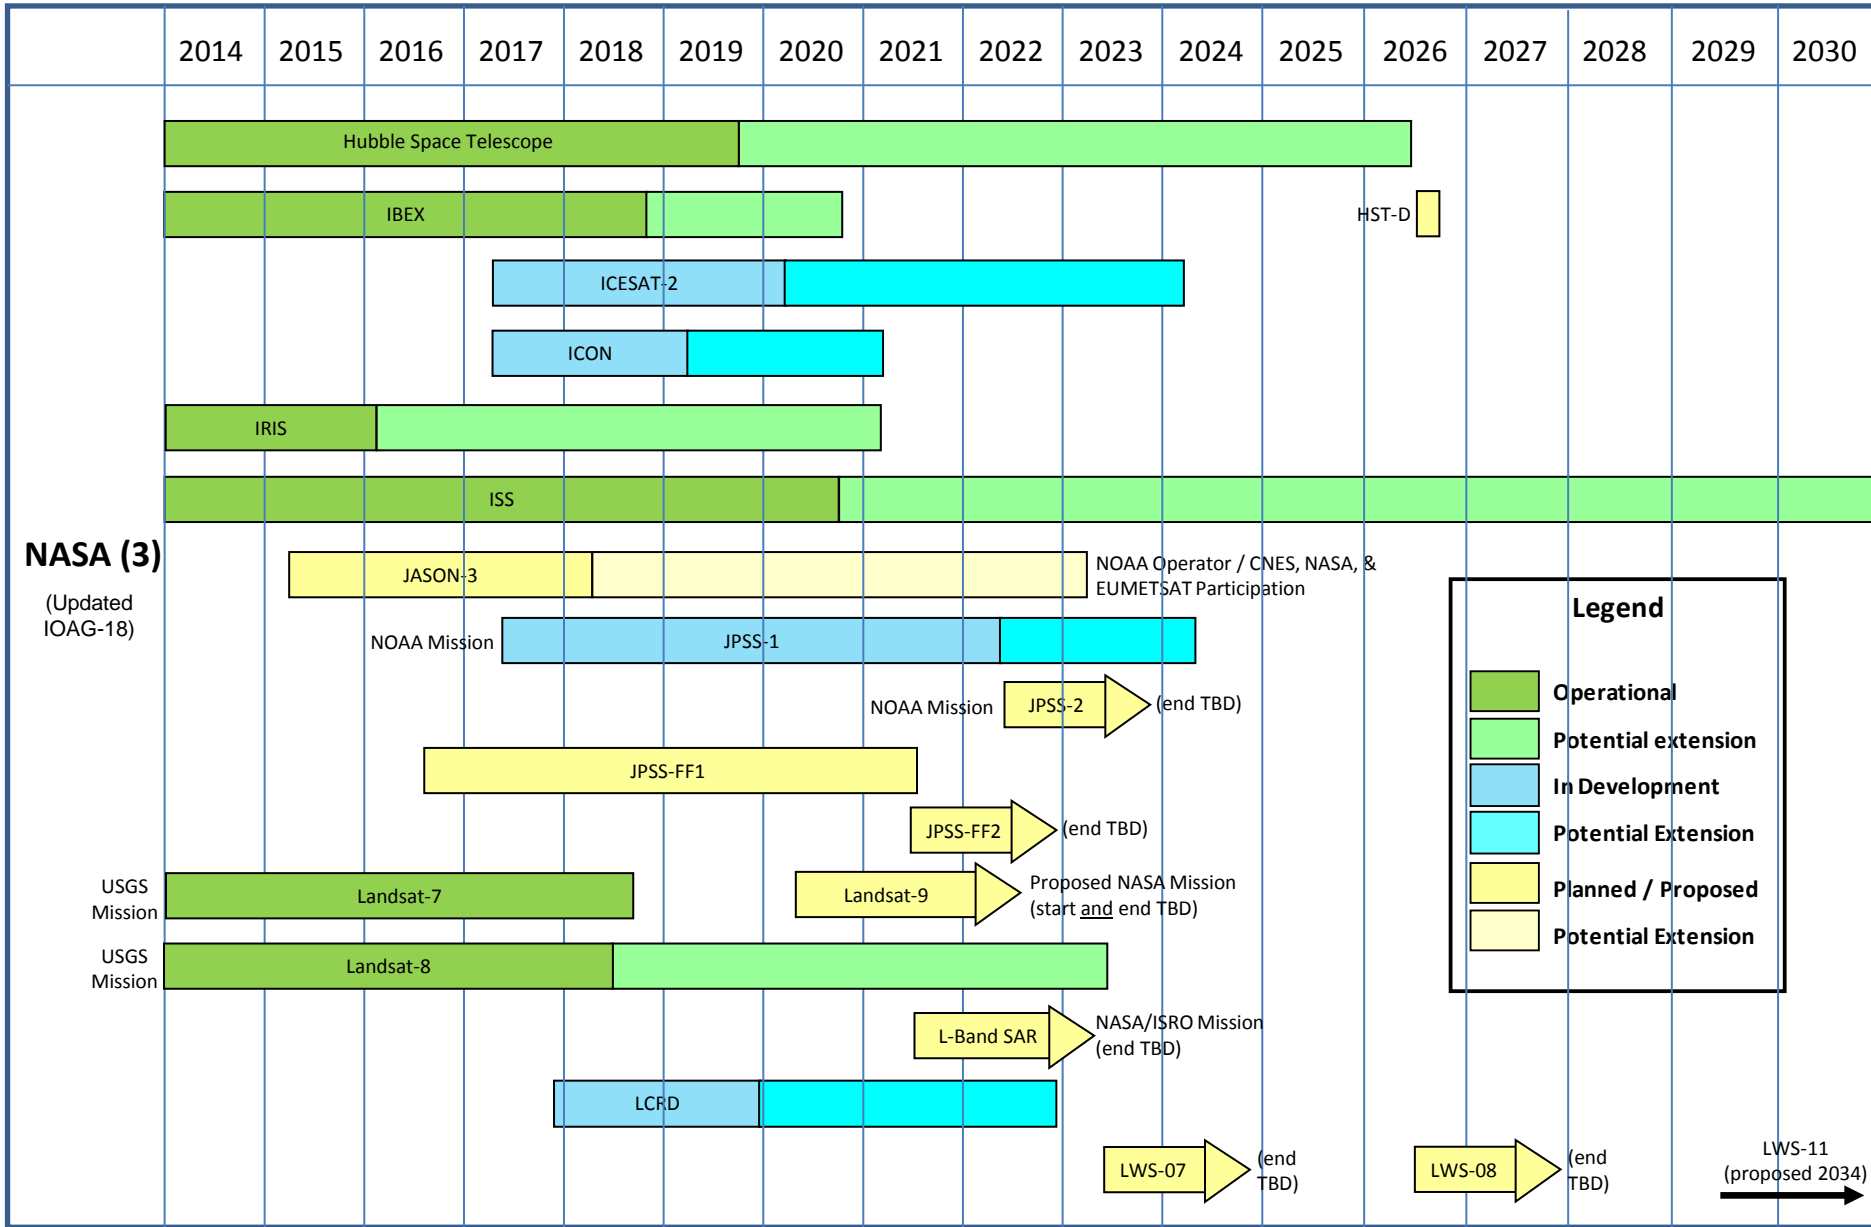

NASA (1)
(Updated IOAG-18)

Earth Missions (8)

Earth Missions (9)

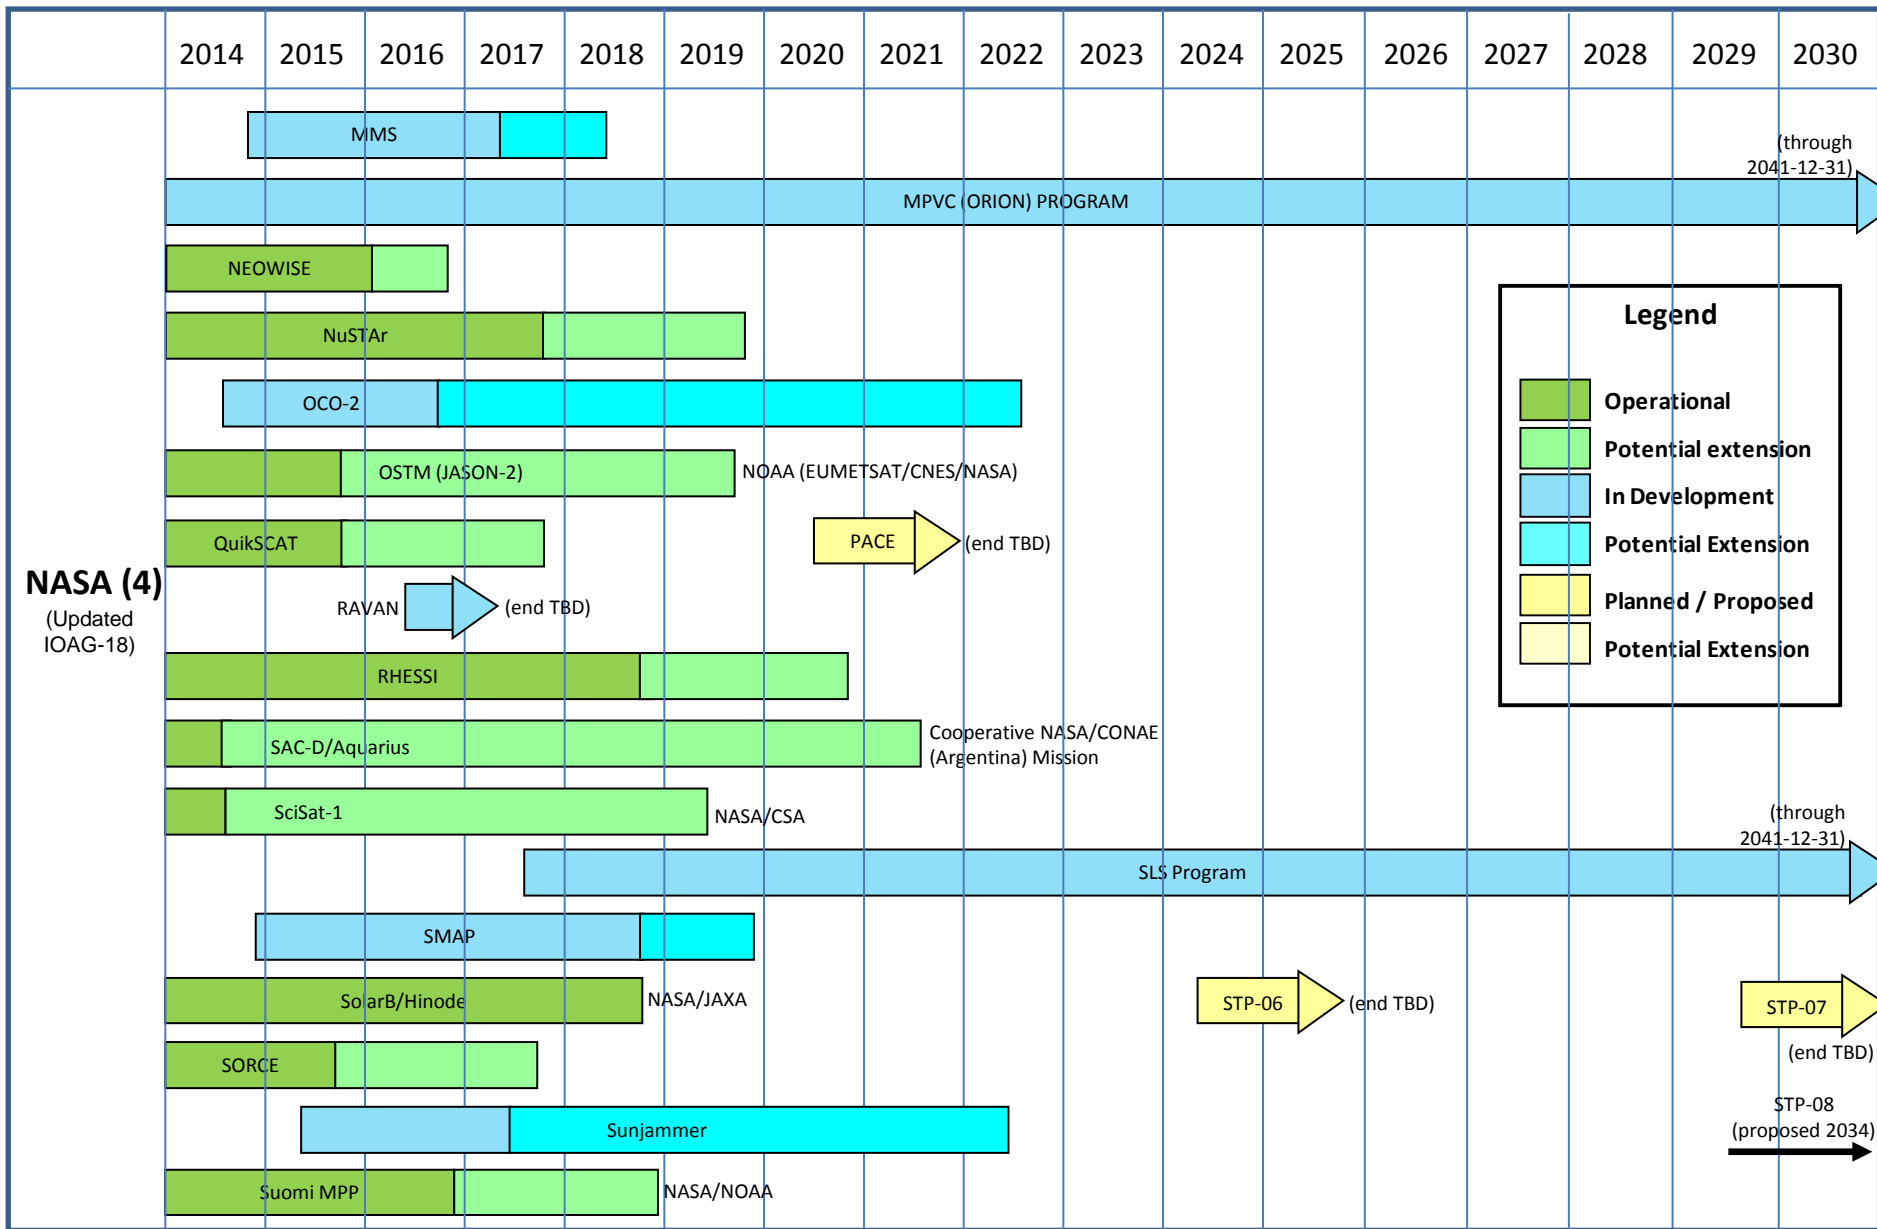

NASA (3)
(Updated IOAG-18)

Legend

- Operational**
- Potential extension**
- In Development**
- Potential Extension**
- Planned / Proposed**
- Potential Extension**

Earth Missions (10)

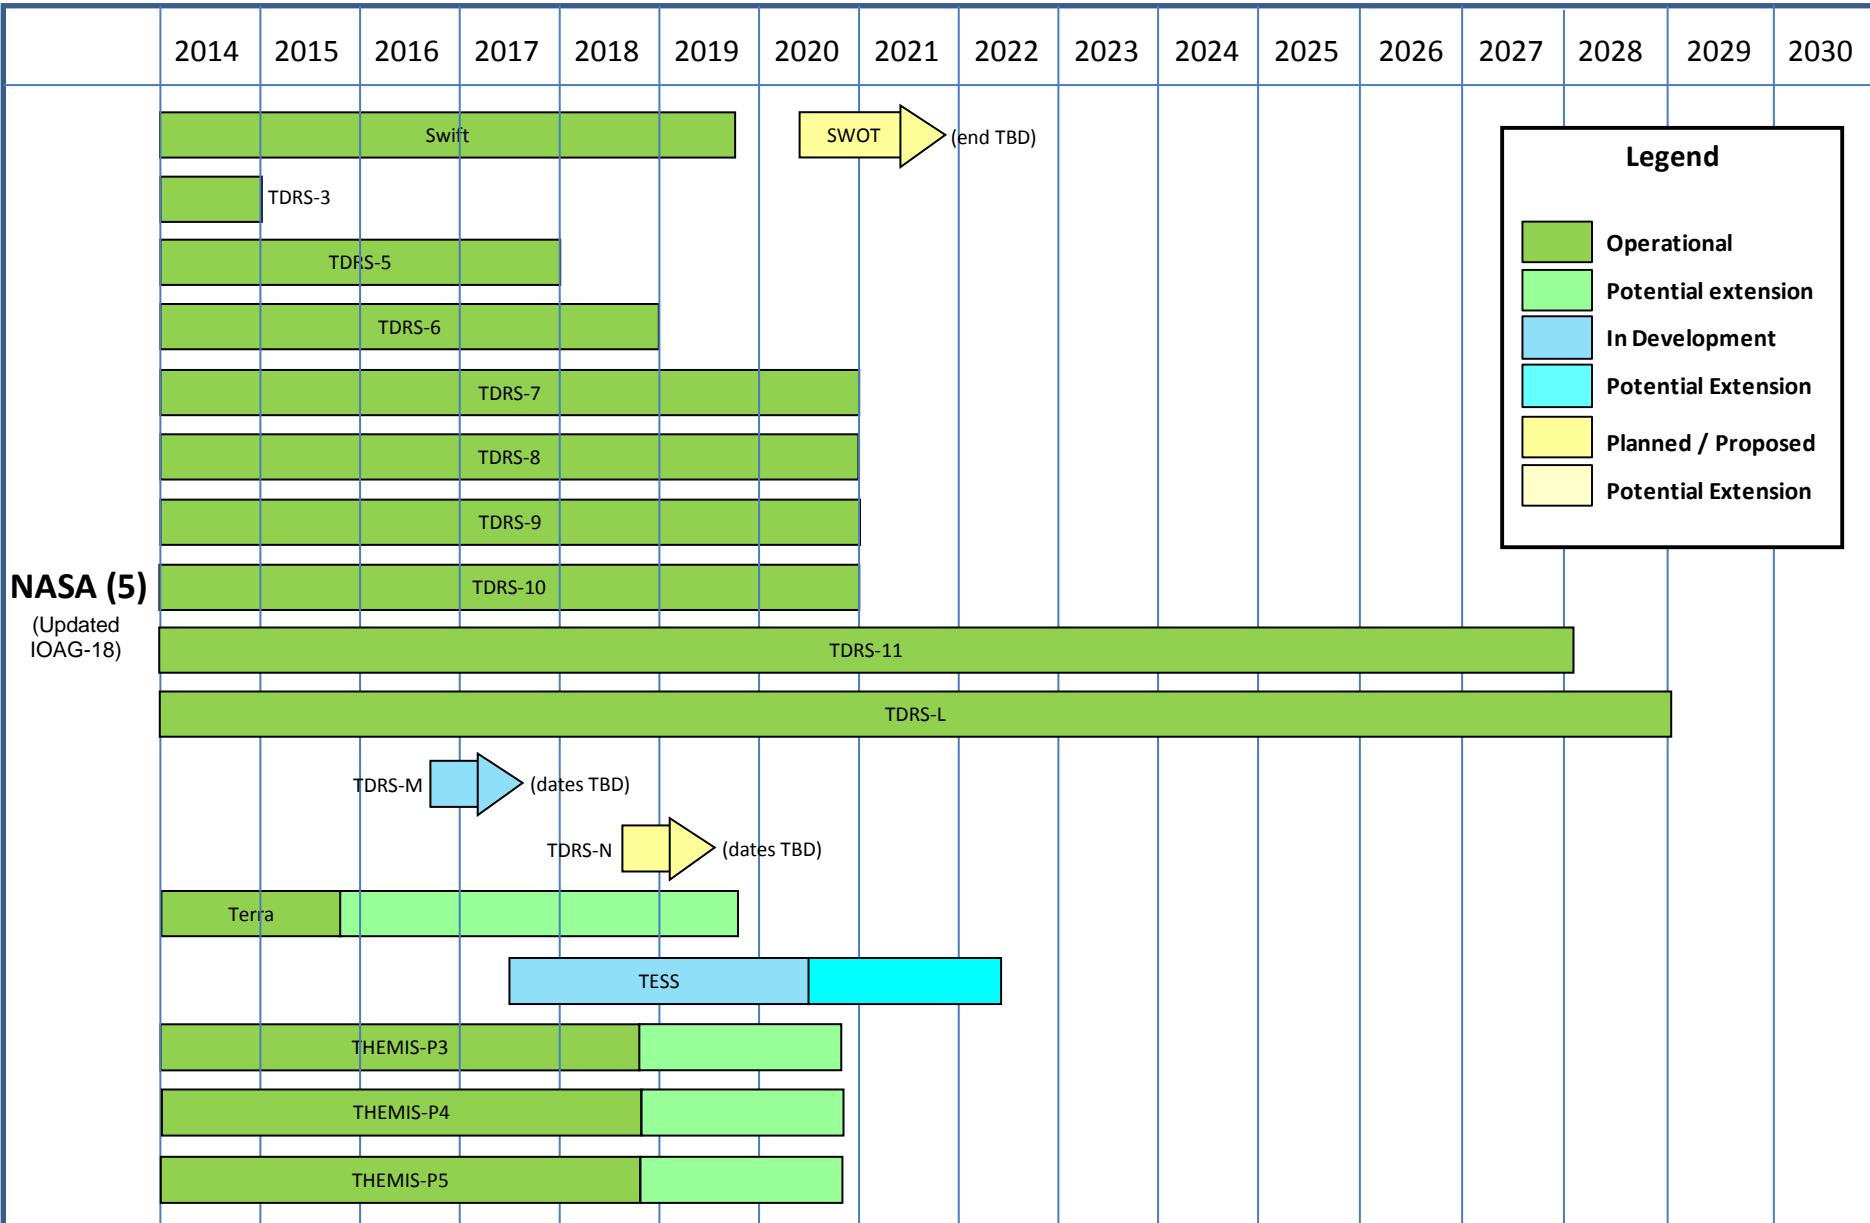

NASA (4)
(Updated IOAG-18)

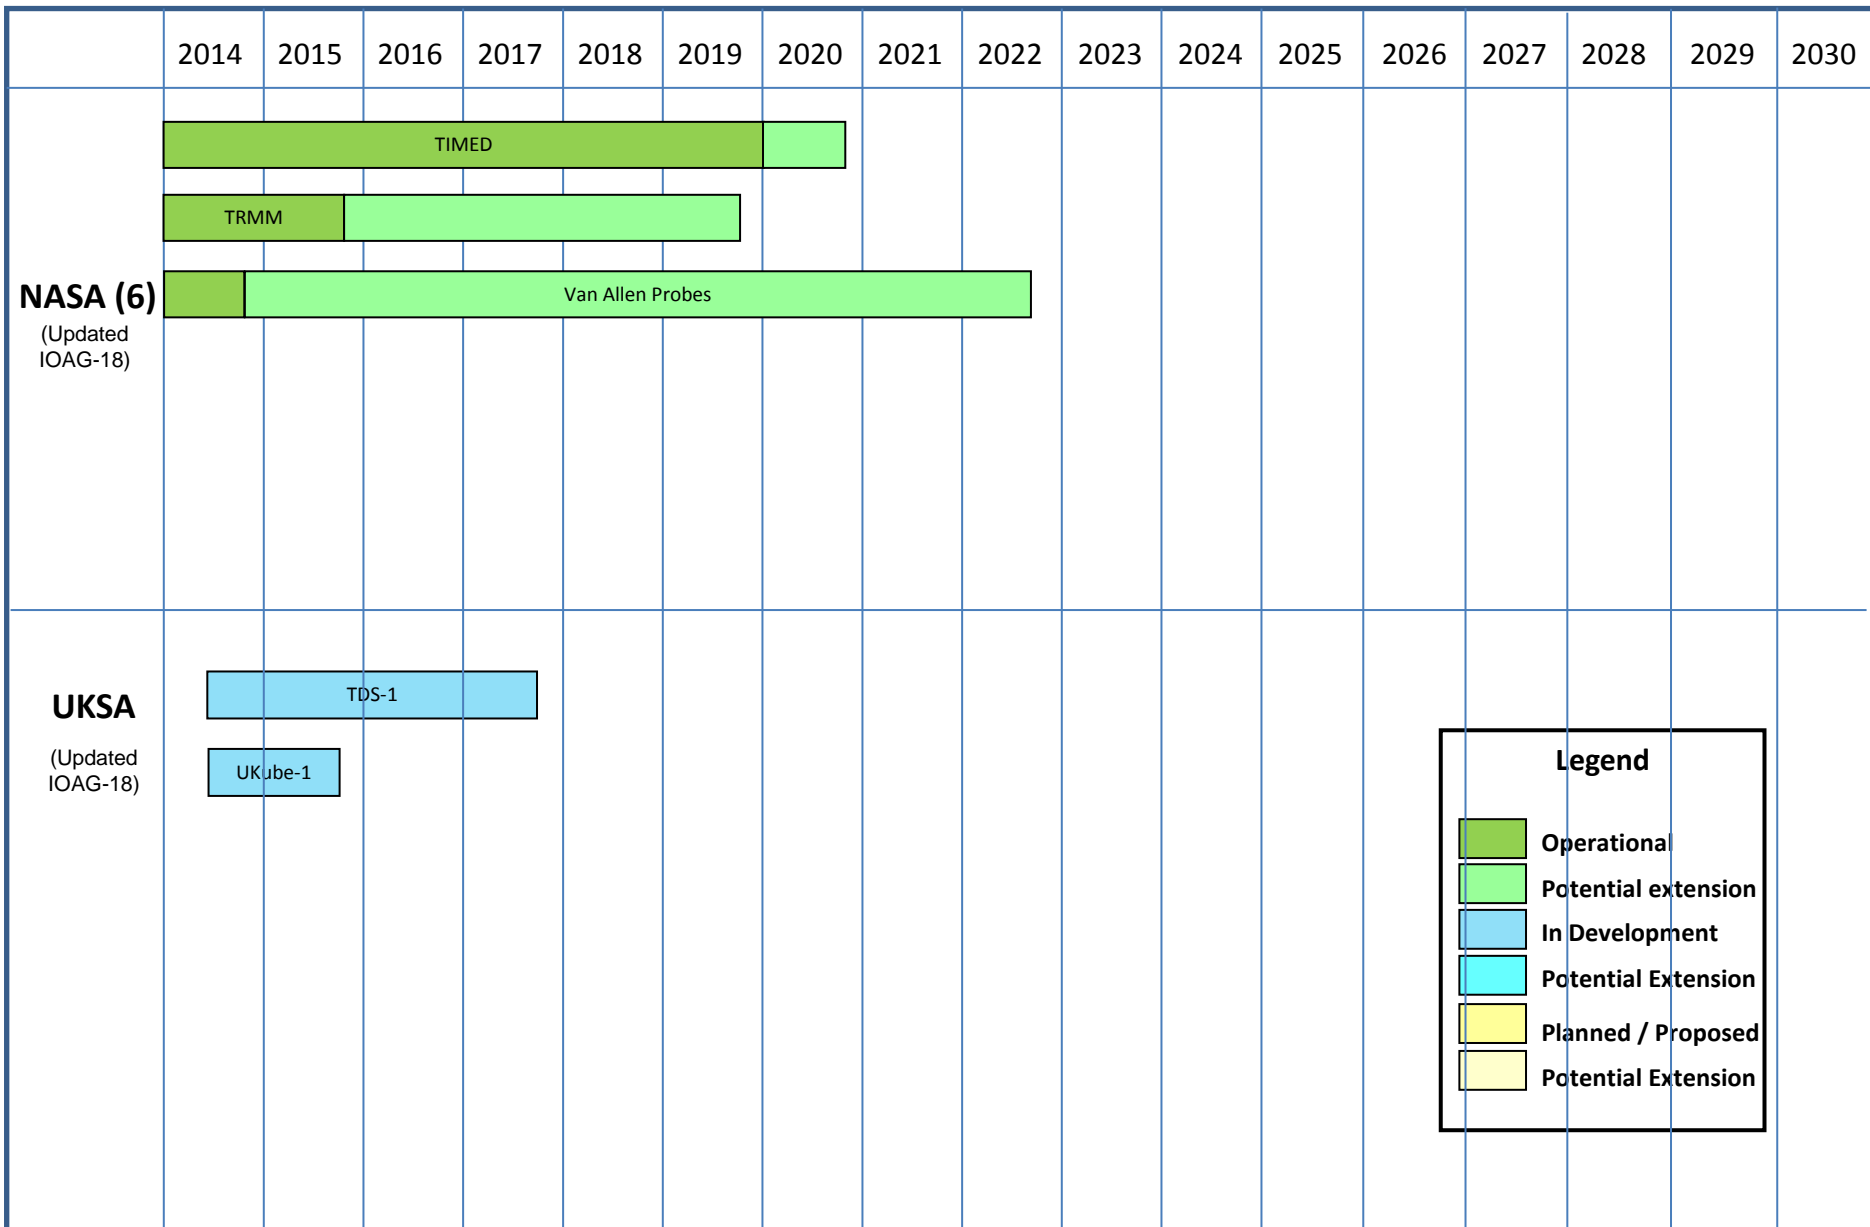

Legend

- Operational
- Potential extension
- In Development
- Potential Extension
- Planned / Proposed
- Potential Extension

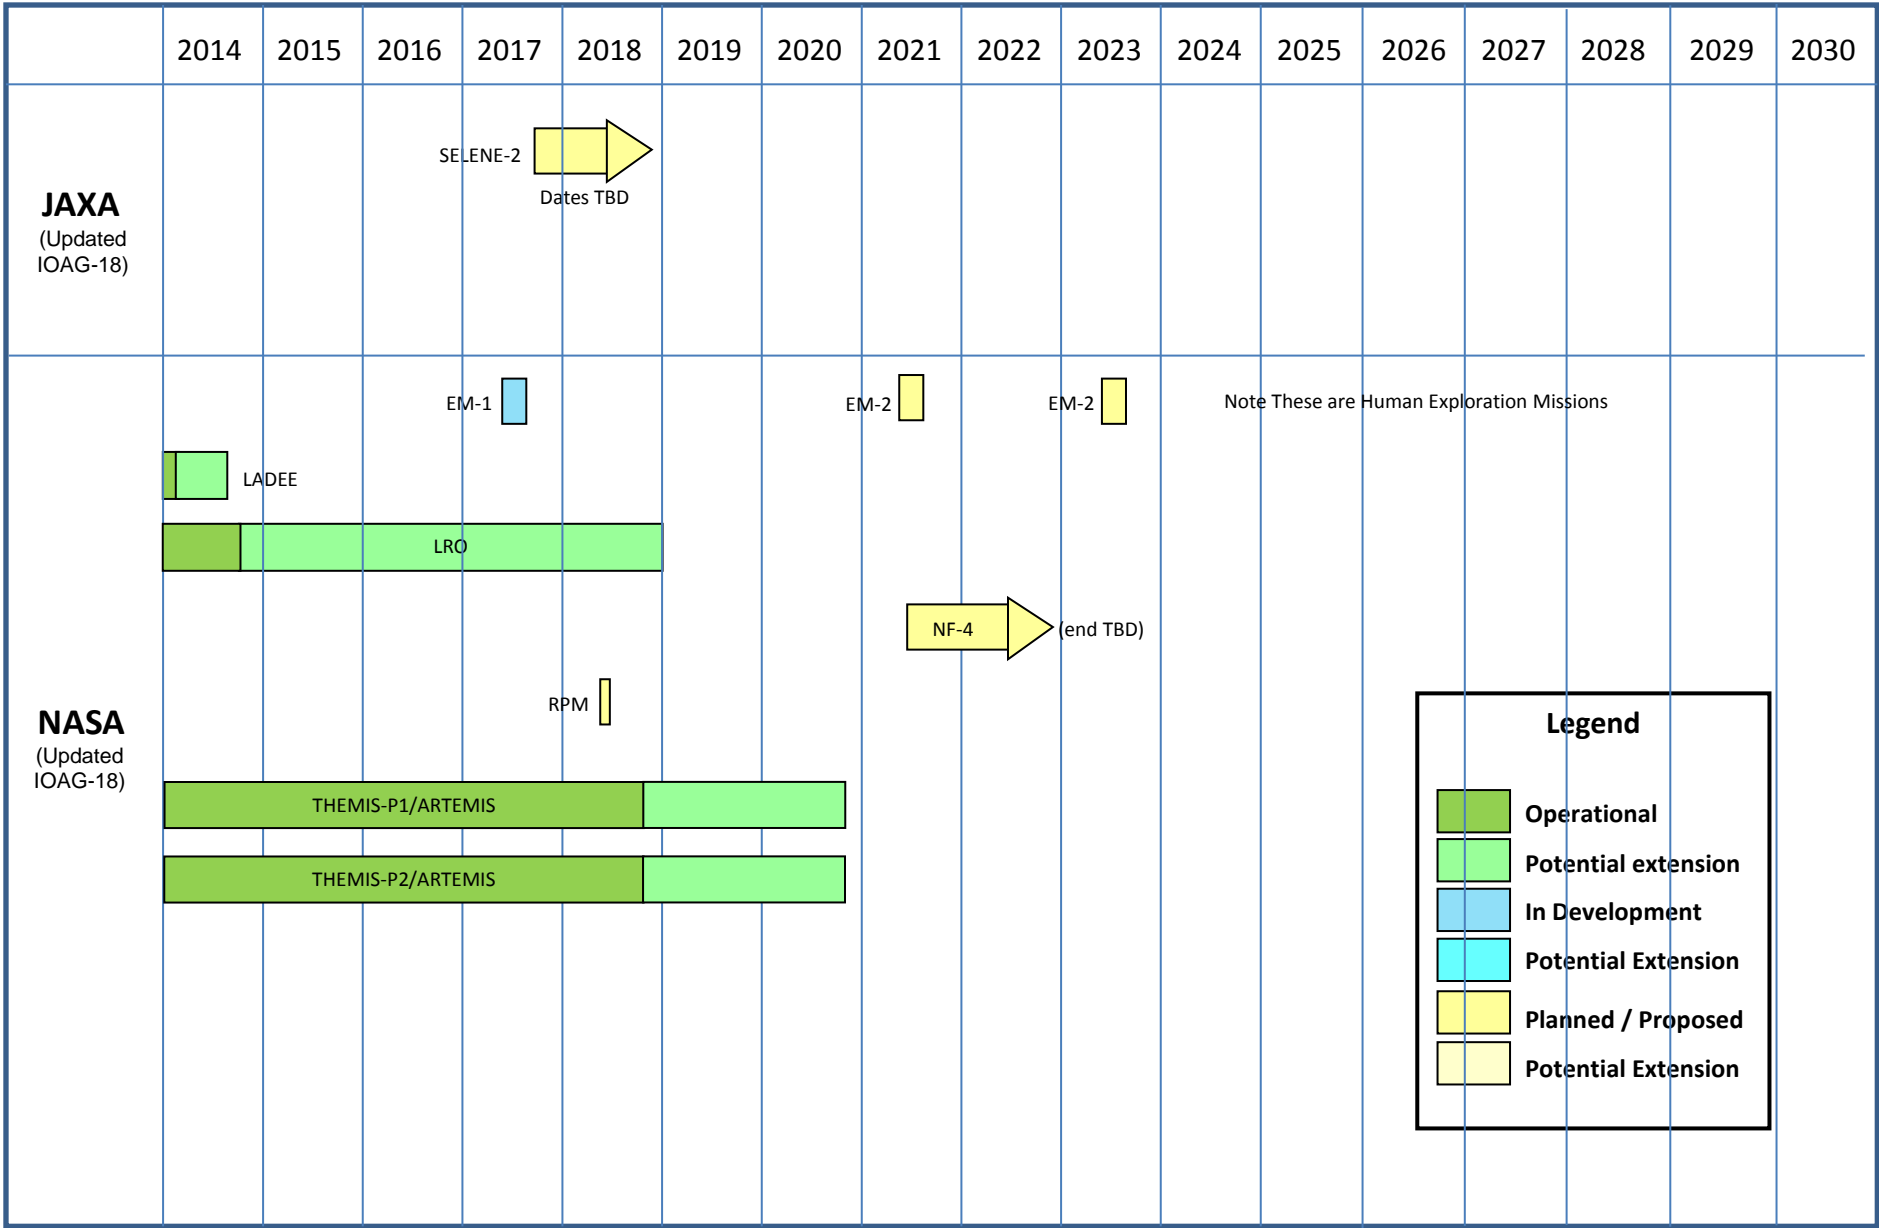

Earth Missions (11)

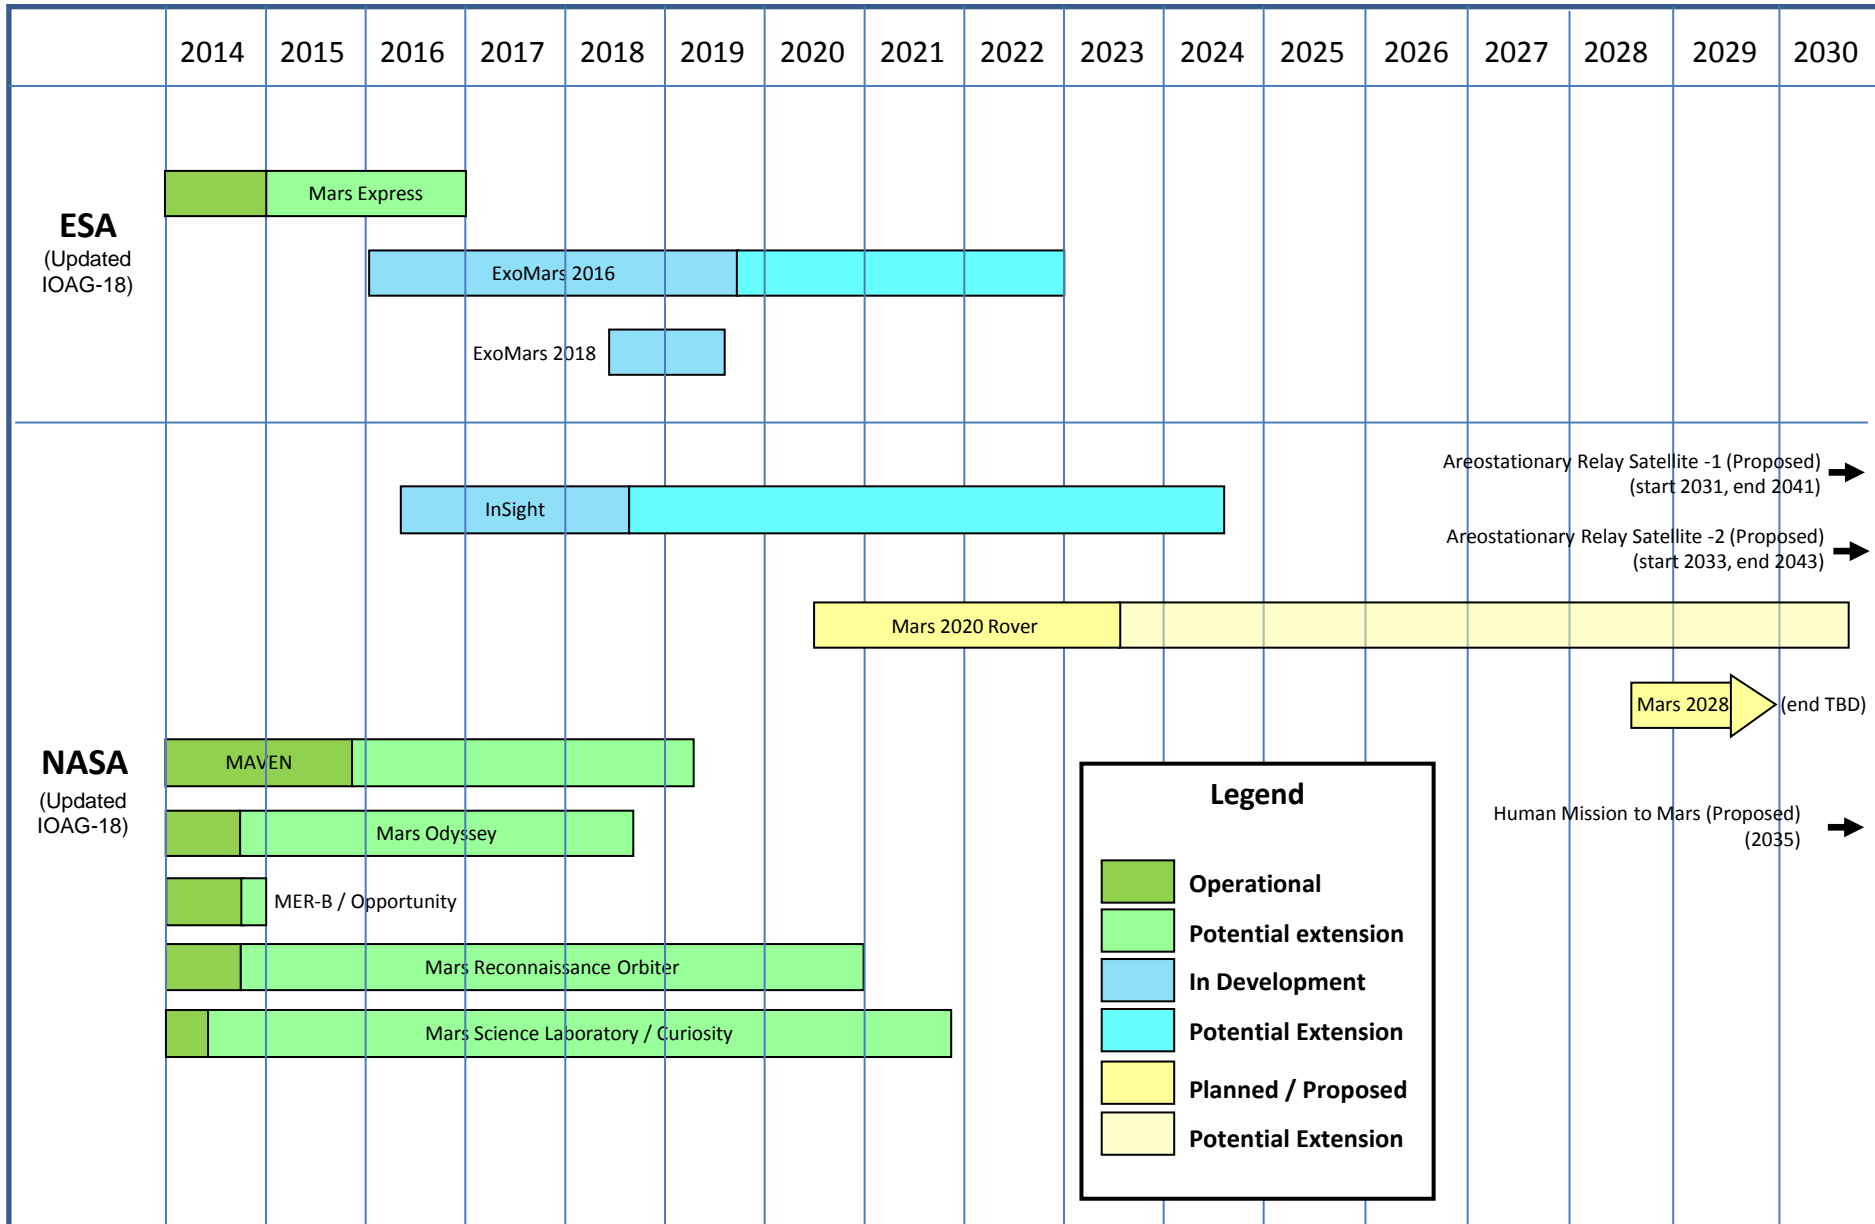

Earth Missions (12)

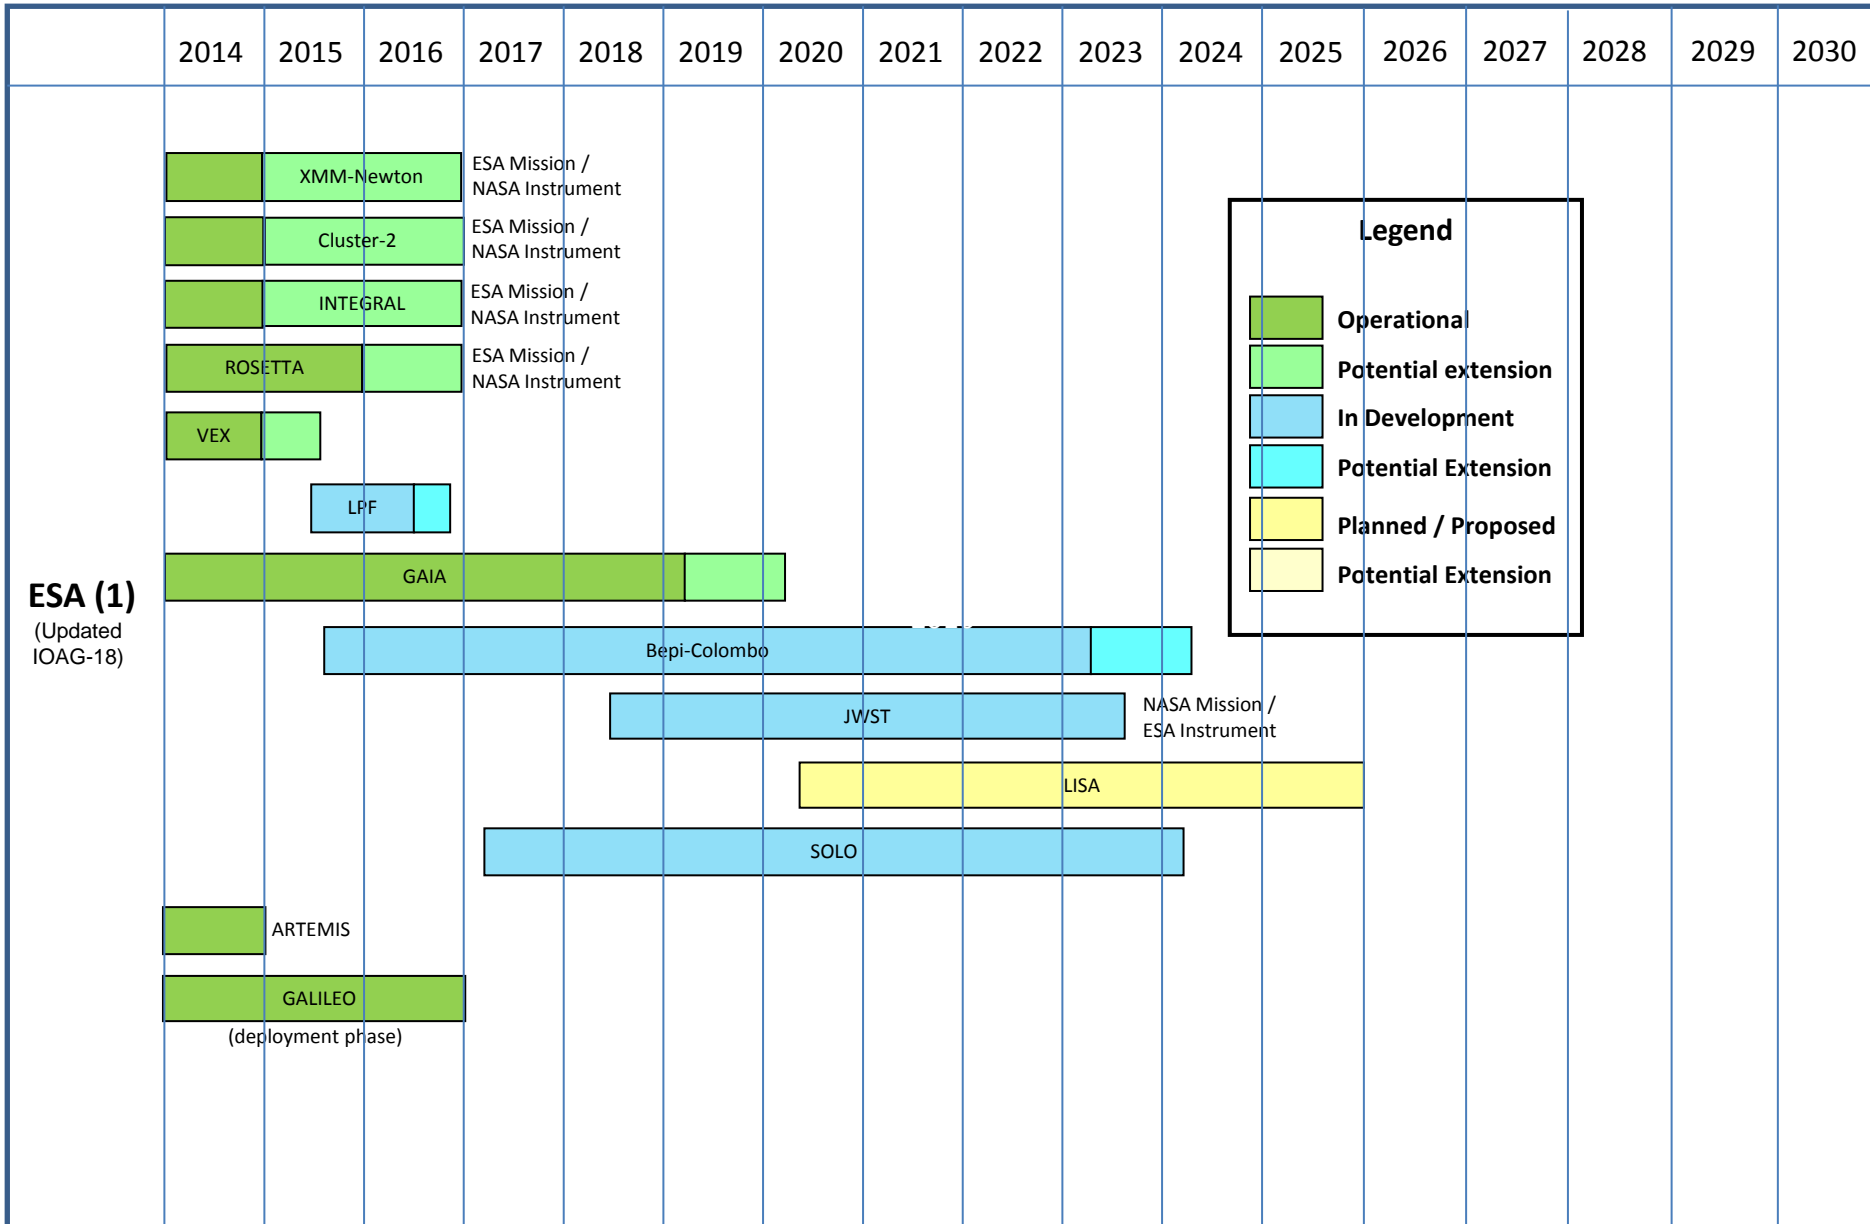

Moon Mission Model

Mars Mission Model

Other Missions* (1)

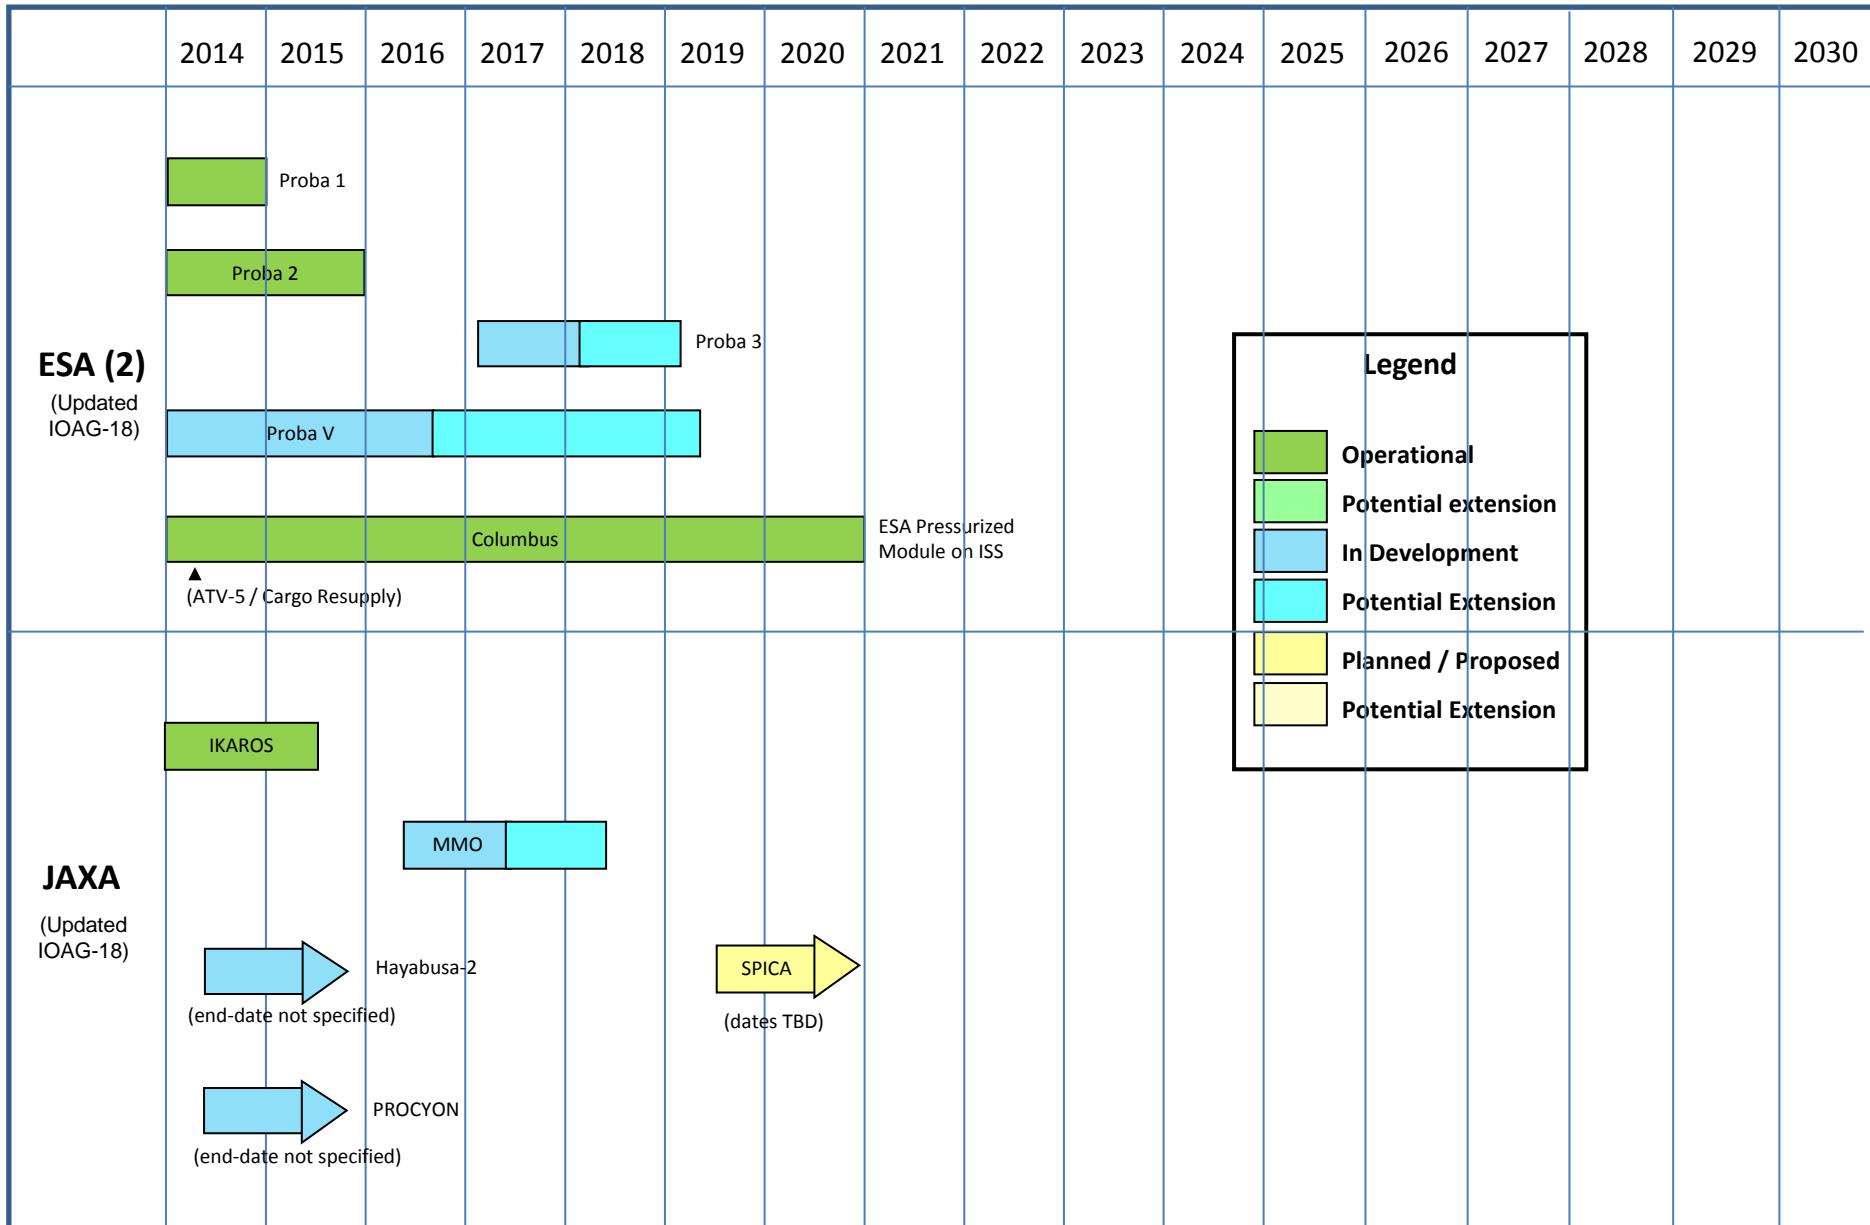

ESA (1)
(Updated IOAG-18)

Legend

- Operational**
- Potential extension**
- In Development**
- Potential Extension**
- Planned / Proposed**
- Potential Extension**

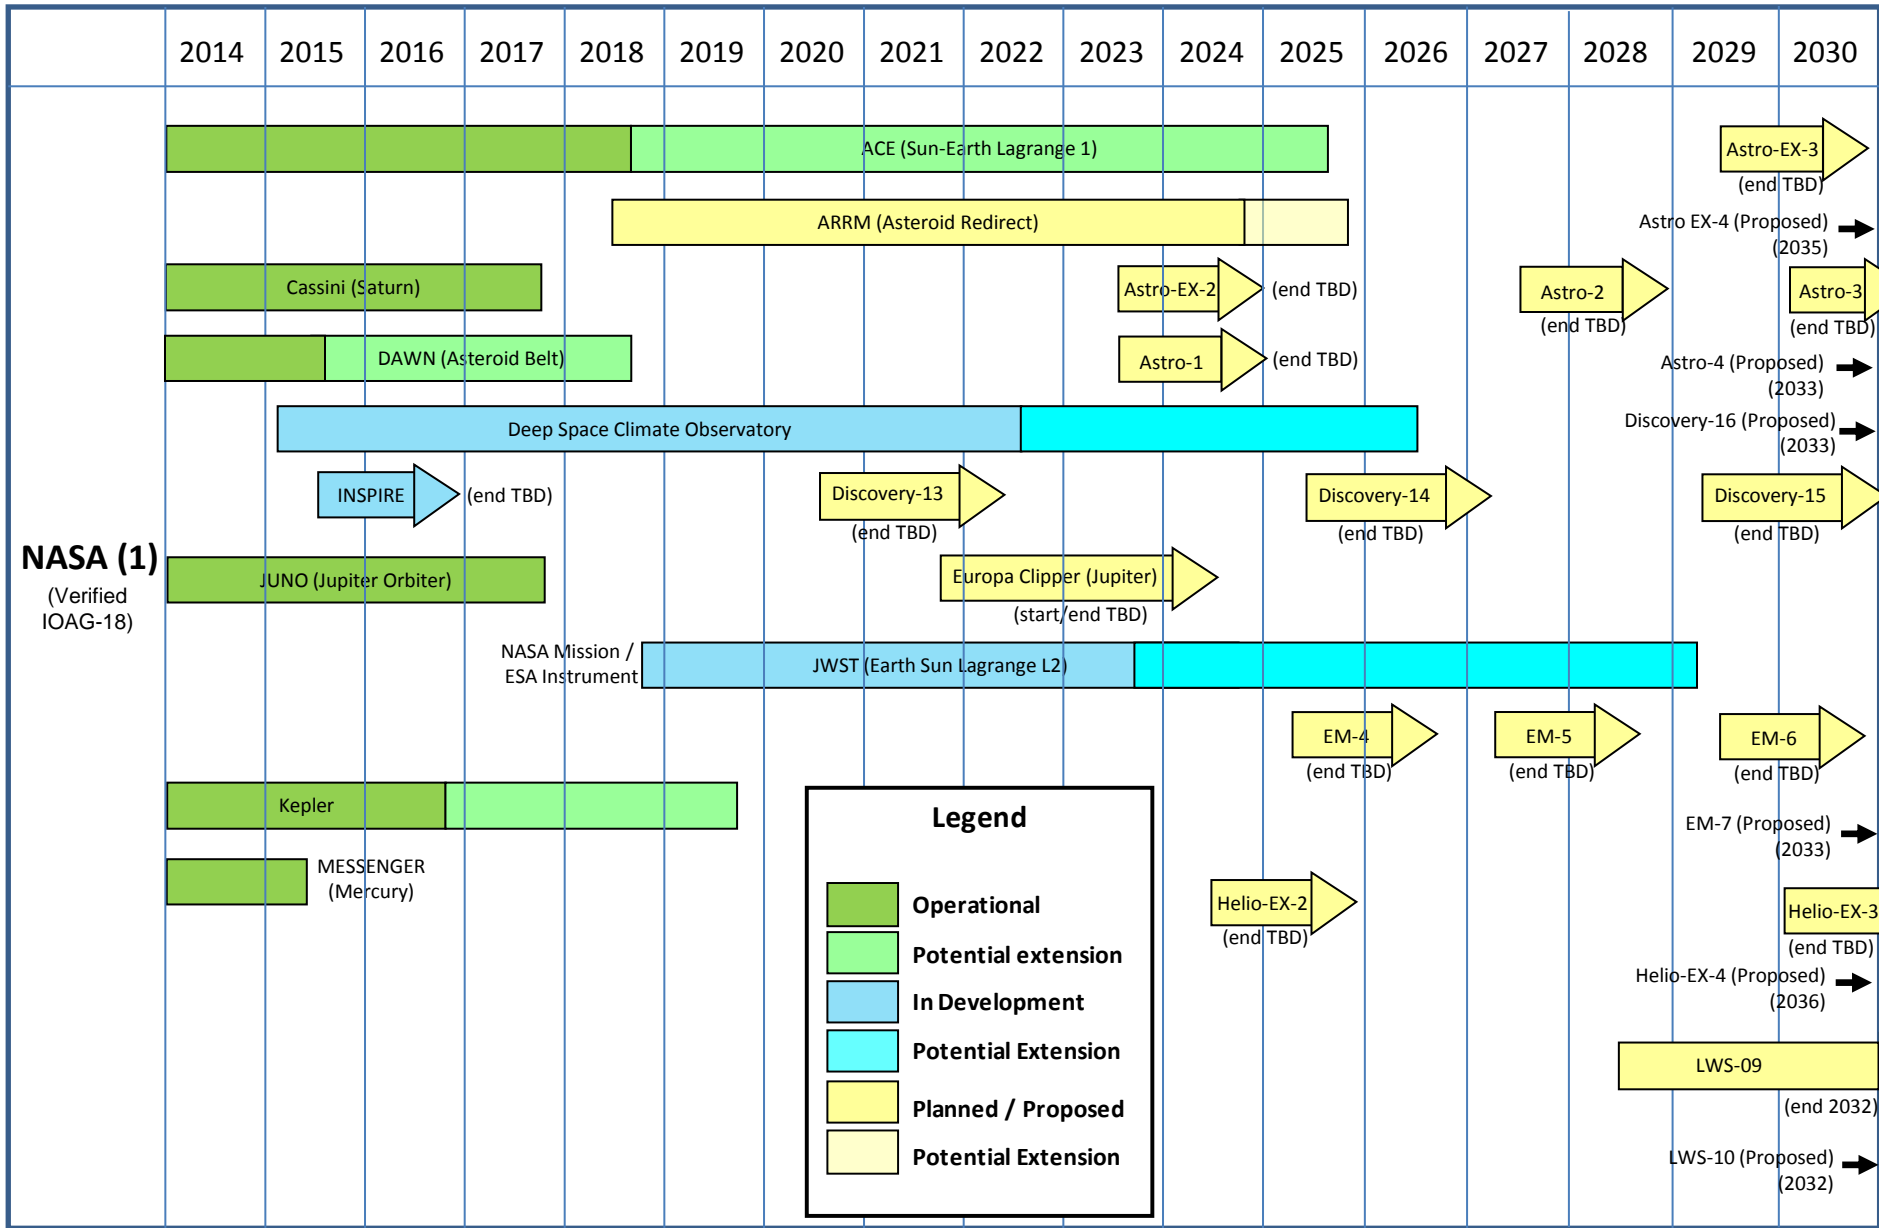

(*) CLARIFICATION: The term 'Other Missions' includes missions to the Earth-Moon Lagrange points, and Deep Space (Heliocentric, Venus, Jupiter, etc). 16

Other Missions* (2)

(*) CLARIFICATION: The term 'Other Missions' includes missions to the Earth-Moon Lagrange points, and Deep Space (Heliocentric, Venus, Jupiter, etc).

Other Missions* (3)

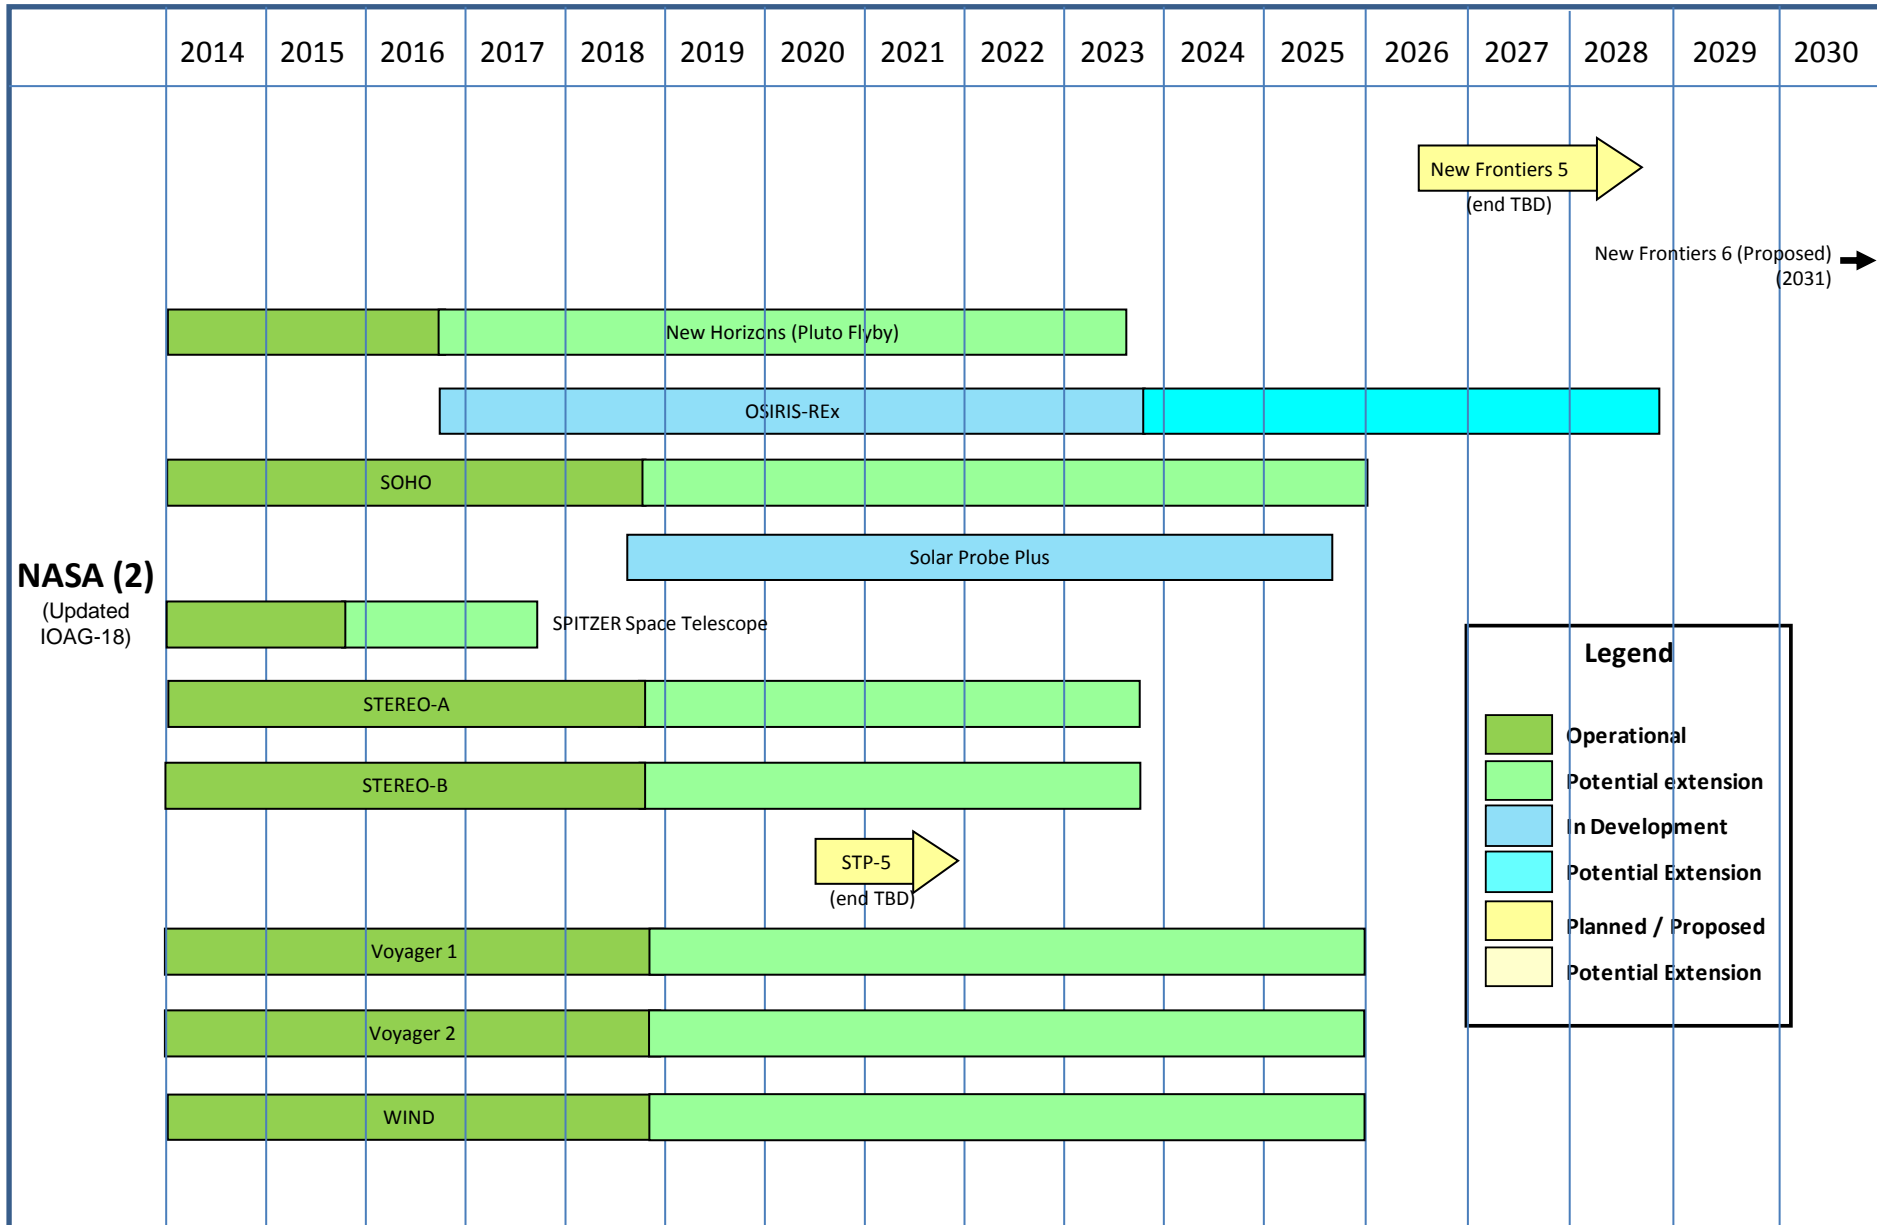

Legend

- Operational**
- Potential extension**
- In Development**
- Potential Extension**
- Planned / Proposed**
- Potential Extension**

(*) CLARIFICATION: The term 'Other Missions' includes missions to the Earth-Moon Lagrange points, and Deep Space (Heliocentric, Venus, Jupiter, etc). 18

Other Missions* (4)

(*) CLARIFICATION: The term 'Other Missions' includes missions to the Earth-Moon Lagrange points, and Deep Space (Heliocentric, Venus, Jupiter, etc). 19
